ONE HUNDRED FOURTEENTH COUNCIL

PATRICK T. FAGAN.....President

GEORGE BOXHEIMER.....City Clerk

LOUIS C. DINARDO.....Ass't City Clerk

Pittsburgh, Pa.,

Monday, January 3, 1966.

On Monday, January 3, 1966, at 10:00 o'clock, A. M., the members-elect of the Council of the City of Pittsburgh, together with those holding over, convened in the Council Chamber of said City in accordance with the provisions of the Act of Assembly of the Commonwealth of Pennsylvania, approved May 31, 1911.

The Council was called to order by George Boxheimer, City Clerk, who acted as Chairman, Pro tem of the meeting.

The Chair:

This being the day and hour fixed by the Act of Assembly for the organization of the Council of the City of Pittsburgh, the One Hundred Fourteenth Council will be in order.

We are honored this morning by the presence of Very Reverend Monsignor Daniel H. Brennan, Pastor, Epiphany Church, who will offer the prayer of invocation.

Very Reverend Monsignor Daniel H. Brennan, Pastor, Epiphany Church, offering the following prayer:

In the Name of the Father, the Son and the Holy Spirit.

Almighty God, Creator and Governor of all that exists, we beg Your presence with us today. We are gathered for an event which is in keeping with Your will, for here those will take the oath of office who by the selection of the people will participate in power delegated from You to govern the City of Pittsburgh.

Lord, be with us not only today but everyday. Especially with these members of the City Council. Give them the understanding that the concerns of the people must be their concern. In love for the city they call home, Pittsburghers believe that they have placed their interests in the hands of honest men, with an understanding sufficient for the station. Make it be so.

Grant these civil servants the wisdom to see that the government is a trust and the officers of the government are trustees and both the trust and the trustees exist for the benefit of the people. Make these always worthy of that trust.

Lesser minds have raised their voices saying that the end of government is to keep the populace happy. Instill in these Councilmen the knowledge that the goal of government is not to make the people happy but to accomplish the happiness of the people. And Lord, give them the incisiveness always to make the distinction.

As we beg of You, O God, for these Councilmen the insight that they may

judge with prudence that which is best for your people; we also ask for them the integrity that they will invariably follow that prudent judgment against any temptation to self-interest or other unworthy pressures; and finally, we petition for them the industry so that with indefatigable endurance they will labor for that which, by Your Grace, they will have come to appreciate is the means to Pittsburgh's ultimate prosperity and, incidentally, a means to their own ultimate reward.

The Chair:

Thank you, Monsignor Brennan.

The Chair:

It is now my pleasure to present to you, and to those assembled here, the re-elected President of Council, Mr. Patrick T. Fagan.

Mr. Fagan:

Thank you George Boxheimer, City

Clerk, who has been here longer than City Hall.

I am sorry that the Right Reverend Monsignor Brennan had to leave. He postponed a funeral mass for a half hour in order to come here and give us his beautiful Invocation which was an inspiration to all of us. When he told me that he had postponed the funeral mass for a half hour, I said "that poor soul will be a half hour late getting into Heaven." But, I know when the Monsignor gets through with the Mass and the blessing, there isn't any doubt that he will be in a happier world than this.

In the absence of the Monsignor, we have here Brigadier General John D. Waldron, Divisional Commander of the Salvation Army, Ex-Governor David L. Lawrence, Prothonotary David B. Roberts, City and County officials, and a good many ladies and gentlemen. On behalf of our Mayor Joseph M. Earr, the members of City Council, and the City employees, I extend you a very hearty, warm, and sincere welcome to this swearing-in of the majority of the members of City Council.

I want to take this opportunity to thank all those who have made this moment possible—those who worked on my behalf during the recent election, as well as the voters who have elected me to my fifth term as a member of Pittsburgh's City Council.

To my colleagues, I would like to express my gratitude for the confidence they have shown in me by re-electing me as President of Council.

This is indeed a proud day for me and a proud day for the members of my family—my children, my grandchildren and great-grandchildren.

Sixteen years ago to this day, I was first sworn in as a member of Council.

During this time, my philosophy has always been that a public office is a public trust. With this in mind, I have endeavored—with all the force at my command—to be a servant of all the people of Pittsburgh.

When I first took the oath of office in 1950, I said then that we in the City Administration were going to rebuild Pittsburgh like the pioneers of Fort Duquesne did—by hard work and by pulling together for the common good of the community.

This we have done.

We have done it by cooperating with every community interest—labor and management, big business and small business.

We have done it by abolishing party lines when doing so meant progress for the City.

We have done it by putting into operation one of the boldest redevelopment programs ever attempted in any city, and by producing a local anti-poverty program that is one of the best in the nation.

And we have done it by expanding the services of the City to meet the growing needs of the people of Pittsburgh.

We recognize, however, that a great deal more needs to be done.

For example, we have laws on the books that give every citizen equal opportunity in terms of finding a job and living where he chooses.

But now it is our responsibility, as leaders in government—along with every segment of the community—to translate equality of opportunity into results for all Pittsburghers, regardless of race, creed or color.

We Democrats have not retained the confidence of the people of Pittsburgh for the last three decades merely by being satisfied with what we have done.

Rather, we have maintained this confidence by constantly looking for ways to improve this City, to make it a better place in which to live and work.

The Democratic Party in Pittsburgh can indeed be proud of the record it has written under the leadership of

former Mayor David L. Lawrence, of our one-time acting Mayor, Thomas J. Gallagher, who has retired after 32 years of service, and of our present Mayor, Joseph M. Barr.

The sixteen years I have spent on City Council have been rewarding years, exciting years—rewarding to me in the sense of accomplishment derived from being a member of Council, and rewarding to the people who have benefited from our achievements.

And I have a hunch that the next four years will be even more rewarding, even more productive.

They are years of great promise for Pittsburgh.

Present plans indicate that 1966 could be a record year for construction in Pittsburgh.

Retail sales and production in the Pittsburgh area are expected to continue at near peak levels.

And I know that I can speak for my colleagues when I say that we on City Council intend to do whatever possible to expand our industrial development efforts, our programs for public housing, for parking, for recreation, and for all the countless other facilities so vital to a growing city.

Before closing, I would like to extend my welcome to the newest member of City Council—Peter F. Flaherty. He comes to us with a background that is going to make him a fine public servant.

Let me again express my thanks to everyone, along with my very best wishes for a happy, prosperous and holy new year.

May God bless all of you.

Now, the newly-re-elected member of Council, Mr. Philip Baskin, Committee on Finance, who for the last six months has been grappling with the budget that was adopted for 1966. I am happy to present a wonderful young man who gives of his time, energy and intellect,

helping to make Council do the things that are in the best interests of all the Citizens of the City of Pittsburgh. I present, Mr. Philip Baskin.

Mr. Baskin:

Thank you Pat.

I am very happy to join with you and the other members of Council on this occasion. I also want to extend my thanks to all the people who made my reelection possible and I want to say that I recommit myself to the programs that you laid down in your address, Mr. President—that is, to work for the best interests and welfare of all the people during the next four years so that we and they and our children and their children will find Pittsburgh a much better place in which to live, to work, and to play.

Thank you.

The Chair:

And now I bring to you our new addition to Council, to whom we extend the very warm welcome of City Council. Mr. Flaherty is one of those persons who, to know him is to love him. He is loved and respected by his friends and his co-workers.

May I present the new addition to City Council, Mr. Peter F. Flaherty.

Mr. Flaherty:

Thank you Mr. Fagan, and the Clergy, Judge McCarthy, Ex-Governor Lawrence, public officials, my family and my friends.

This morning, on the way into town, one of the members of my family said to me, "are you nervous?" I recalled the story of the first Astronaut, John Grissom, before his first flight, when he was asked by Government officials, "are you nervous?" and he said, "yes." The Government official then asked how he could be nervous when "you have so many great instruments." Mr. Grissom said, "Yes, it is true, I have all these

wonderful instruments but I keep remembering they were made by the lowest bidder."

I am pleased and honored in assuming this office here this morning. I realize I am succeeding one of the most diligent, devoted and delightful persons. The knowledge and the experience of Mr. Gallagher will be long remembered and hard to replace. I am also mindful this morning of the wonderful accomplishments of your City under Mayor Joseph M. Barr and before him, Governor David L. Lawrence, and the many others devoted to the revitalization of the City of Pittsburgh

However, I am sure that Mayor Joseph M. Barr and Mr. David L. Lawrence would be the first to agree that while much has been done, much remains to be done. In the nineteen twenties and the nineteen thirties, history shows the great issue of our Country was farming.

Today, as we move into 1966, the great issue has shifted from the farm to the City and I am sure a great challenge faces us. Federal aid came to the aid of the farmer in the nineteen twenties, with money and research. Today, the Department of Agriculture has an annual budget exceeding six billion dollars.

Our Congress and Federal Government has begun to recognize the troubles of our cities and they have come to our aid with Federal grants. We are looking forward to and are hopeful for many other programs from our Government. There are many improvements taking place here in our City and, as we look around and see all the wonderful new buildings, still I am reminded that with all of our buildings, the greatest resource we have in our City is our people.

As I enter this new term as a member of Council in 1966, I hope that I will have the vision and foresight to recognize the needs of our great people. May God give us the selflessness, the compassion, and the ability and responsibility to respond to their needs.

Thank you.

The Chair:

Next we come to the Chairman of the Committee on Public Safety. We had the pleasure of running together and we ran as a team, one for all and all for one. At times, we got our meetings mixed up but, nevertheless, we finally got there. The Chairman of the Committee on Public Safety, the largest department in the City government which has to do with the Fire Department, police, traffic planning, Bureau of Building Inspection, really an important department which spends a lot of money over the fiscal year, and the Chairman of that Committee is the watchdog, J. Craig Kuhn.

Mr. Kuhn:

Thank you Mr. President. I look forward to serving for another four-year term and particularly with an able, new, young colleague as eloquent as Peter Flaherty.

When we consider the problems of the City, we can take considerable pride here in Pittsburgh that we don't have as deep a well to crawl out of as the mayor of New York City has to crawl out of and that we do not have to count so heavily on resources from outside, although our advances here would have been impossible without the support of the Governments of the State and the Nation.

I want to say just briefly that the confidence that has been developed under the Administration under Governor David L. Lawrence and Mayor Joseph M. Barr in municipal affairs and good public administration, I think are being carried forward exceedingly well by able employees. It is a pleasure to serve as Chairman of the Committee on Public Safety where the most critical needs of urban population are now reflected. Our Police and Fire Bureaus in the City carry very hazardous and great responsibilities and their efficiencies and capacities in jobs that are quite difficult must always be acknowledged.

I think under the able and devoted leadership of the Director of Public Safety, the problems of work in these Bu-

reaus and of the service to the people of the City of Pittsburgh necessarily show substantial improvement. I would say that I have been proud to have worked with Director Craig in meeting with the representatives of the fire and police employees of the City in the past year, to work with them and, more than that, have been heartened to see the advances that have been made in the administration of these Bureaus and to see the potential that we can realize in these areas of public service. I think that the next four years in this City will show real service to the people in these areas and I look forward to serving in them.

Thank you.

The Chair:

The next gentleman, a Councilman, that I am about to introduce is the Chairman of the Committee on Filtration and Water. Councilman Charles J. Leslie has been applying himself in trying to set up a big program for a new, rapid sand filter system for the City of Pittsburgh which will bring us better water, a more clear water that will be on tap at all times. It is my pleasure now to present Councilman Leslie.

Mr. Leslie:

Thank you Mr. President. I might say "Amen" to the clear water. I hope we are successful in the near future.

There really isn't much more that I can say which hasn't already been said by the previous members. It seems as though Phil and Peter and Craig have outlined what we have to do. But, I should say I am grateful to many people for being able to serve in this Council. First of all, I would say the Democratic Organization, the people who endorsed me, the Party members who went out and worked to reelect all of us, those people who worked in the Districts are very faithful workers in the field who made it possible for all of us. I am deeply grateful for their support.

I will try to live up to some of the expectations in the next four years.

I thank all of you again for making it possible for me to serve in Council.

Thank you.

The Chair:

I see in the audience the former Mayor and former Governor of Pennsylvania, the Honorable David L. Lawrence. Do you desire to say anything at this time, Mr. Lawrence?

Former Governor David L. Lawrence:

Mr. President, Reverend Clergy, Members of Council and Friends:

I think I feel that I would be remiss if I would let this occasion go by without paying a tribute to a retiring member of City Council. As I sit here, I am pretty well filled with nostalgia. My mind always goes back 32 years. As I look over at that door of Council, I remember well the surging crowd of Democrats who were so excited about electing a mayor, breaking through.

On that day, Thomas J. Gallagher was sworn in, together with the late beloved and lamented John J. Kane, as a member of this Council.

Tom, I just want to say to you today that all that has happened here in Pittsburgh in the past 32 years, wonderful stories written about the Pittsburgh Renaissance, that have gone throughout the world, you and your former colleague, John Kane, helped lay the foundation for all the things that have happened. Not only here, but I think we started to build a model that has been copied the length and breadth of the United States, by other cities in the rebuilding of those communities.

While I am always grateful for references to myself and Mayor Barr, I do not think we should ever refer to the Pittsburgh Renaissance without also including Mayor Scully because it was under Mayor Scully, in the closing days of the War, that the Pittsburgh program really started. When I came in,

it was under way, so I hope all of us, as the years roll by and history records what has happened in this particular period, remembers him and honors him.

Tom, as you leave Pittsburgh's Council Chambers today, I know you carry with you the best wishes of the taxpayers of this City because of all that you have done here to improve conditions in municipal government. Much of that started when you started in City Council 32 years ago. You can, in your golden years, look back with a pleasant recollection for the part that you played. Pittsburgh is certainly proud of you.

Mr. Gallagher:

President Fagan, Governor Lawrence, my many friends present here today, and for the many people that have supported me in this long term in office, I am mighty proud that as a former kid in the glass factory on the South Side, I got my first baptism of City government. That was when we were going swimming in the river and the director of the City public health department said it could be contaminated. But, that didn't stop us from going swimming. We went anyhow.

I am happy that I have the strength to be with you this morning to help pay tribute to the members of City Council whom we reelected, and to the other elected officials that are present.

I am deeply touched by the remarks of Governor Lawrence and I know that the people of Pittsburgh appreciate the effort of Mr. Lawrence in the many affairs that the Democratic Party has held in the City of Pittsburgh.

In closing, I want to say goodbye, good health, and may you all have a Happy New Year.

The Chair:

Thank you Mr. Gallagher and God bless you and, as the Governor has said, we hope that the winter of your life will be blessed with happiness, health, and prosperity.

And now I would like to present the

Chairman of the Committee on Public Works, the man who made it possible for me to be standing up here over this great august body, Mr. Counahan and I have been friends for years. You will always find him fighting in the best interests of all of the citizens of the City of Pittsburgh. The Chairman of the Committee on Public Works, John F. Counahan.

Mr. Counahan:

Thank you Mr. President. I am not going to make a speech. I want to congratulate each and every one of those reelected, including you as President. I know that we are going to work together as we have in the past. I wish everybody a very Happy New Year.

The Chair:

And now, the first lady to ever grace the City Council of Pittsburgh, the Chairlady of the Bureau of Parks, Recreation and Libraries. This Committee has a very important function in that the library is very important in the culture and education of our City.

Mrs. D'Ascenzo:

Thank you Mr. President. Judge McCarthy, Governor Lawrence, Reverend Clergy and my colleagues:

I am happy to have this opportunity to congratulate Mr. Baskin, Mr. Kuhn, Mr. Leslie, and to welcome Mr. Flaherty to City Council. I feel especially honored that he is going to be my colleague, sitting at my desk.

I think that everything has been said in the opening remarks, as to our working together, and being good servants to the people of this City.

I wish everyone a Happy New Year.

The Chair:

The next gentleman is the Chairman of Public Service and Surveys, which he will give up, but, in connection with planning and redevelopment, Mr. James Jordon has had a very important part to

play. I take pleasure in presenting at this time, James A. Jordon, Committee on Planning and Redevelopment.

Mr. Jordon:

Mr. President, Reverend Clergy, Governor Lawrence, public officials, ladies and gentlemen:

I, too, like Irma and John, congratulate the newly reelected members of Council. I have enjoyed the last few years working with these men and Mrs. D'Ascenzo and I found it a challenging and rewarding experience.

I think that doing something for the city and working for the city in which you were born is certainly something everyone who has an opportunity to do, should cherish.

I would like to welcome Pete Flaherty and look forward to working with him as a member of Council and, Mr. President, I would like to congratulate you on your having been reelected as President of Council.

And may I wish everyone a happy and prosperous New Year.

The Chair:

Now we welcome Walter Kamyk, formerly a member of the Pennsylvania Legislature for more than 14 years. He had good legislative experience before becoming a City Councilman. Walter is the chairman of Lands, Buildings and Housing.

Mr. Kamyk:

Mr. President, Governor Lawrence, distinguished public officials, members of Council, ladies and gentlemen:

When Mr. President says I am responsible for every building, that reminds me of my first campaign because everywhere I went, Mrs. D'Ascenzo said "Walter, that building belongs to you." I felt as though I owned a lot of buildings.

I, too, want to congratulate You, Mr. President, and newly elected member and

I will try to live up to some of the expectations in the next four years.

I thank all of you again for making it possible for me to serve in Council.

Thank you.

The Chair:

I see in the audience the former Mayor and former Governor of Pennsylvania, the Honorable David L. Lawrence. Do you desire to say anything at this time, Mr. Lawrence?

Former Governor David L. Lawrence:

Mr. President, Reverend Clergy, Members of Council and Friends:

I think I feel that I would be remiss if I would let this occasion go by without paying a tribute to a retiring member of City Council. As I sit here, I am pretty well filled with nostalgia. Mr. Gallagher:

President Fagan, Governor Lawrence, my many friends present here today, and for the many people that have supported me in this long term in office, I am mighty proud that as a former kid in the glass factory on the South Side, I got my first baptism of City government. That was when we were going swimming in the river and the director of the City public health department said it could be contaminated. But, that didn't stop us from going swimming. We went anyhow.

Mrs. D'Ascenzo:

Thank you Mr. President. Judge McCarthy, Governor Lawrence, Reverend Clergy and my colleagues:

I am happy to have this opportunity to congratulate Mr. Baskin, Mr. Kuhn, Mr. Leslie, and to welcome Mr. Flaherty to City Council. I feel especially honored that he is going to be my colleague, sitting at my desk.

I think that everything has been said in the opening remarks, as to our working together, and being good servants to the people of this City.

I wish everyone a Happy New Year.

The Chair:

The next gentleman is the Chairman of Public Service and Surveys, which he will give up, but, in connection with planning and redevelopment, Mr. James Jordon has had a very important part to

play. I take pleasure in presenting at this time, James A. Jordon, Committee on Planning and Redevelopment.

Mr. Jordon:

Mr. President, Reverend Clergy, Governor Lawrence, public officials, ladies and gentlemen:

I, too, like Irma and John, congratulate the newly reelected members of Council. I have enjoyed the last few years working with these men and Mrs. D'Ascenzo and I found it a challenging and rewarding experience.

I think that doing something for the city and working for the city in which you were born is certainly something everyone who has an opportunity to do, should cherish.

I would like to welcome Pete Flaherty and look forward to working with him as a member of Council and, Mr. President, I would like to congratulate you on your having been reelected as President of Council.

And may I wish everyone a happy and prosperous New Year.

The Chair:

Now we welcome Walter Kamyk, formerly a member of the Pennsylvania Legislature for more than 14 years. He had good legislative experience before becoming a City Councilman. Walter is the chairman of Lands, Buildings and Housing.

Mr. Kamyk:

Mr. President, Governor Lawrence, distinguished public officials, members of Council, ladies and gentlemen:

When Mr. President says I am responsible for every building, that reminds me of my first campaign because everywhere I went, Mrs. D'Ascenzo said "Walter, that building belongs to you." I felt as though I owned a lot of buildings.

I, too, want to congratulate You, Mr. President, and newly elected member and

reelected members of City Council. I especially want to welcome Peter Flaherty. I am no longer junior member—he is.

I am looking forward to the next session of City Council. I know this Council will further succeed in putting through the many programs and in realizing the programs that will make Pittsburgh so great in the future.

Thank you very much.

The Chair:

Today we ask particularly that You bless our Mayor with the wisdom, strength and patience necessary to work best for the good of all our citizens. May he be constantly aware of his dependence upon You, and he solve the problems of the city within the framework of Your law. And may we, who depend upon his leadership, cooperate with all his efforts for the common good. Through Christ our Lord, Amen.

The Chair:

Thank you Monsignor Hayes.

And the Mayor, Joseph M. Barr, took and subscribed to the oath of office, which was administered to him by the Honorable John J. McLean, Jr., Judge of the Court of Common Pleas of Allegheny County.

The Chair:

The Mayor will sign the oath of office.

And Mayor Joseph M. Barr signed the oath of office.

The Chair:

Ladies and gentlemen, I will dispense with the litany which was repeated this morning in the absence of many City and County Officials. I am pleased that Governor Lawrence who is a great friend of the gentleman who just took the oath of office as Mayor, is present with us today. I believe that Governor Lawrence has known Joe Barr since childhood and has given him a lot of advice, counsel, and wisdom over the years.

It is now my pleasure to present to you the Mayor of the City of Pittsburgh, Joseph M. Barr.

Mayor Barr:

Judge McLean, Monsignor Hayes, Father McGuire, President Fagan and

members of City Council, my family and my friends, and the citizens of the great City of Pittsburgh:

This inauguration day is a proud and happy one for me and the members of my family, just as I am sure it is for the newly-elected members of City Council.

My remarks today will be necessarily brief because of my recent eye-surgery. However, I would like to think that no lengthy recitation of pledges for the new year is really required, for we have maintained a continuing dialogue with the people of Pittsburgh.

Our plans for the months ahead were carefully spelled out during the recent election campaign. We presented our plans for Pittsburgh's future as precisely and comprehensively as possible. We neither exaggerated our achievements nor minimized the difficulties that lay ahead. We made no promises that cannot be kept; in short, we talked sense to the people of Pittsburgh.

They, in turn, responded once again with a strong vote of confidence. It should be a source of pride to us here today to know that Pittsburgh is one of the very few major cities in the nation where one political party with its philosophy of progress has enjoyed the support of the people over a span of more than 32 years.

Such support, let me hasten to add, will continue only so long as we continue to earn it.

One of the dictionary definitions of inauguration is "auspicious initiation".

Certainly, we enter the new year under auspicious circumstances.

Pittsburgh is moving in the right direction.

Our rebuilding effort is growing, and from all indications, 1966 may well prove to be a record year for new construction in both the private and public sector.

Equally important, our plans call for us to move ahead in the field of human

renewal. During the past year, federal authorities cited Pittsburgh as a pace-setter in such programs as the war on poverty and the Neighborhood Youth Corps. We must continue to earn this reputation by expanding our local efforts to help people help themselves out of the despair of poverty.

Our employment picture is encouraging—but still too subject to the vagaries of heavy industry. That's why we must step up the wide-range of industrial planning programs launched during the past 12 months.

There is cause for optimism in the new year—but no reason for smugness. We have not retained the support of the people of this community over the last three decades by looking over our shoulders at past achievements. Yesterday's accomplishments are important only insofar as they serve as a guide to what we should be striving for in the months ahead.

As Mayor, I am looking ahead to four years of casual caretaking—and I would hope that no one in this Administration is thinking in those terms.

I am looking forward to new ideas in government, new approaches, new suggestions from the departmental level on how we can better serve this community.

There is no department in the City that can't perform its function better.

Our goals should be—and must be—to make the City safer, our streets cleaner and brighter, our recreation facilities more attractive for young and old, to explore every means of providing more housing for low-income families, in short, to do all those things which will kindle public support and establish faith in the future.

I would like to have said four years hence that Pittsburgh is a fertile testing ground for new ideas. And beyond that, that Pittsburgh has leadership with wisdom enough to accept the good ideas and courage enough to reject those concepts which prove unworkable.

A new year evokes a healthy optimism that things can be better. Yet, we recognize such optimism is not self-fulfilling.

Wishful thinking will not produce the new revenue sources the City needs to meet the demands of its employees and to provide the expanded services the people expect.

Nor will human wishes alone produce the equality of results in education, in employment and housing that our fellow Negro citizens expect in speedy fashion. We now have equality of opportunity for all citizens within a legal framework. To translate equal opportunity into concrete results is the major challenge confronting Pittsburgh and every urban community in the nation.

This challenge will receive the highest priority in this Administration during the next four years.

There is no scarcity of problems ahead of us, unresolved problems left over from the old year and new ones we aren't even aware of yet.

Yet as Mayor, I am convinced that if sound solutions can be developed anywhere, they can be worked out here in Pittsburgh.

We have valuable allies that few communities have.

We have generous cooperation of a whole corps of men and women, Republicans and Democrats, in public and private employment, who are inspired by their dream of a new and finer Pittsburgh.

We have civic pride and citizen leadership.

Our task, that of the Mayor and City Council and City departments, is to provide the intelligence and leadership to inspire the cooperation we need.

We do not promise a future without difficulty.

We do promise an Administration that will not be afraid to innovate where innovations are called for, to take risks

where the goal is worth the risk, to provide the vigorous leadership that is our public responsibility, to strive to do those things which will make Pittsburgh a better city for all its citizens.

I am happy to note in the audience about seven of the ushers at my wedding. One of them came here from San Francisco. I am also happy to note in the audience the Matriarch of the family, Mrs. Buchanan, who is the oldest member of our family. She is one woman who does not mind your reminding her of her age. She will be 80 her next birthday and doesn't look 50.

There is one man who was not a member of Council as of 10 o'clock this morning. I would like to take a moment to talk about Thomas Gallagher who served this City of ours and served it so well, for 32 years. He was a member of Council when great decisions had to be made. I am going back and thinking in the middle forties when the choice was whether we would become just another old city or whether Pittsburgh was going to move ahead. That called for bold decisions and thank God for Mr. Gallagher, Mr. Fagan, Mr. Counahan — We have so many new and younger members who have carried on in the same fashion, but making those decisions has made Pittsburgh the City it is today.

Then, we have today sworn in a new member of Council who will commence to work arm-and-arm, hand-in-hand, with the other members of the Administration, namely, Peter Flaherty. It has been my pleasure to know him for a number of years and I know you will get to know him and admire him.

Going back again to Thomas Gallagher, it was he who served as mayor during the transition period at the time when Mayor Lawrence was elected Governor, through the whole year of 1959, which made the job so simple, so easy for me to take over, December 2 of that year.

Tom, we will always look forward to your guidance and I think you have a warm spot in everyone's heart in the City of Pittsburgh.

In closing, I want to express my sincerest wishes and those of my family to all the citizens of the Pittsburgh community that the New Year will bring into your lives a full measure of prosperity, happiness and good health.

Particularly, I would hope that the New Year will see peace restored once again throughout the world so that our energies can be transferred from foreign battlefields into the domestic war against the evils of poverty and unemployment and under-education.

I thank you all for coming and may God bless you all through this coming year of 1966.

The Chair:

Thank you Mayor Barr and I know it is both a pleasure and a privilege and a delight for members of Council to work with you to make Pittsburgh the kind of City that we all can be very proud of.

MOTIONS AND RESOLUTIONS

The Chair presented

No. 70.

It was with deep regret that the people of the City of Pittsburgh learned of the death of Harmar D. Denny, Jr., a life-long resident of his native city, at the age of 79, on January 6, 1966, in England.

Mr. Denny was a member of one of the oldest families in Pittsburgh, and was a direct descendant of Ebenezer Denny, the first Mayor of Pittsburgh.

Mr. Denny's first service in public office was that of Director of the Department of Public Safety in the early thirties. He also served in the 29th Congress of the United States during the 1950-1952 term. His great grandfather, Harmar Denny, also served as a Congressman from 1829 to 1837.

Mr. Denny was a veteran of World Wars I and II, and upon his retirement from army service received a permanent commission as Lieutenant-Colonel. He served by appointment of former President Dwight D. Eisenhower as a member of the Civil Aeronautics Board.

Mr. Denny was a practicing attorney and held membership in the Allegheny County Bar Association, and the Law Club. He was also active in many charitable, religious, fraternal, veterans and civic organizations.

Therefore, Be It

Resolved, That the Mayor and the members of Council of the City of Pittsburgh extend their sincere sympathy to the bereaved family of Harmar D. Denny, Jr.

Which was read.

Mr. Counahan moved

The adoption of the resolution.

The Chair:

I might add to what the Resolution contains, the Denny Family was one of

the most prominent families in the City of Pittsburgh. They really were endowed with one of the greatest gifts—Charity.

They owned a lot of property in the City of Pittsburgh but during the depression of 1929, up until it was over, they never evicted anyone at any time and apparently cleaned up most of the rent bills after the depression was over.

They were a good, honest, kind family and Mr. Harmar D. Denny, Jr. was a Citizen of whom all of us can be proud. Of course, the resolution contains his war record and all of the public services in which he participated. He was a gentleman, a lawyer, a scholar and a great American. I hope that when we adopt this resolution, we will do it with a standing vote and a silent prayer to the memory of a great Citizen.

And the question recurring on the adoption of the motion, the motion prevailed by a rising vote and a moment of silent prayer.

Mrs. D'Ascenzo:

During the Christmas Holidays, the death of Sarah Mellon Scaife was a great loss to the City of Pittsburgh and its people.

Due to the fact that our Council meeting of last week was the installation and swearing-in of officers, I did not feel it appropriate to offer a resolution at that time, and I would like to do so now.

Perhaps many people are not aware that even as of right now, there is a grant from Sarah Mellon Scaife which is going to make possible the building of an aquarium at the Highland Park Zoo. She was a woman in every sense of the word and, more than that, a humanitarian who loved the City, as can be attested to by the many things she gave.

She loved beauty and the fact that there are as many trees today, planted in the City of Pittsburgh, is due to this love of beauty. Each successive year, she has given a grant which the City

of Pittsburgh has matched, and these trees have been planted both in the old, established neighborhoods and in the new developments. All of us know that a thing of beauty is a joy forever. These trees will be her lasting memorial.

She was interested in the children of the City. In the Department of Recreation, there was no fund to pay for transporting the children to the day camps. It was through her generosity that this transportation was made available. The children, grown, are her benefactors, as are all the people of this City.

Mrs. D'Ascenzo presented

No. 71.

The death of Mrs. Sarah Mellon Scaife has brought deep sorrow to the people of the City of Pittsburgh.

Mrs. Scaife was a very charitable person and contributed large sums of money for public improvements. Her contribution recently was for the building of an aquarium at the Highland Park Zoo.

She was a gentle woman in every sense of the word, a humanitarian, who loved her native city, and was instrumental in providing funds for its beautification. She was also interested in the

children of our city as can be attested to the fact that she provided the funds to pay for transporting the children to the day camps provided for by the City of Pittsburgh.

Her generosity was well known not only in her beloved city but throughout the Nation.

Therefore, be it

Resolved, That the Mayor and the members of Council of the City of Pittsburgh express their sincere sympathy to the bereaved family of Mrs. Sarah Mellon Scaife.

Which was read.

Mrs. D'Ascenzo moved

The adoption of the resolution.

Which motion prevailed by a rising vote and a moment of silent prayer.

Mr. Leslie moved

That the Minutes of Council of Monday, January 3, 1966, be approved.

Which motion prevailed.

And upon motion of Mr. Counahan,

Council adjourned.

And the bills were read a second time.

Mr. Kuhn:

Mr. President: I intend to vote against these ordinances for the reasons that were explained in our committee meeting last week, but I wanted to call to your attention the fact that we have a communication from the Schenley Farms Civic Association that relates to the control of student parking by the University of Pittsburgh and asks that Council include adequate provision for off-street parking in any further Pitt expansion. At our committee meeting last week, I and the other members of Council asked that the University of Pittsburgh inform us of the current status and in view of this letter from the

Association, I think it particularly appropriate that we have the information to vote on the outcome of these ordinances. I would like to call the attention of my colleagues to one sentence in this letter which I think brings into sharp focus a fact that may have been overlooked: "Our eighty-five residents pay taxes just the same as Pitt." Perhaps this is an inadvertence by the members of the Schenley Farms Civic Association. I expect that they pay more taxes than the University of Pittsburgh since the University is a tax-exempt organization.

Mr. Jordon:

Gentlemen, I understand that since your last meeting, we again met with the representative of the University of Pittsburgh and with the new Acting Chancellor who assured us that they would develop or follow the recommendations of Council and will have included in any package, their explanation of their planning with regard to the inclusion of this parking problem. They are as concerned about it as we are and he has assured us that they will move ahead in trying to solve this problem immediately. We also have some recommendations, (Mr. Mauro), which are being presented to the University. As we indicated at our Council meeting, we are going to make progress on this and we will have worked out a plan that I think will be satisfactory to all the members of Council.

The Chair:

I might say, for the information of Council, that I talked with the Acting Chancellor. Of course, I have known him for the last twenty or twenty-five years. He has done a lot of things for the City of Pittsburgh and always stands by his word. He assured me of the same thing as they talked to Mr. Jordon about, that they are going to do everything humanly possible to work this problem out and they will work with the Planning Commission. Of course, the University does not pay taxes but the faculty, those who live in the City of Pittsburgh, pay wage tax and occupation tax. I think just a few years ago it was the second largest taxpayer outside of J&L, in the City of Pitts-

burgh. Naturally, the people on Parkman Avenue pay real estate taxes and probably other taxes also.

Mr. Kuhn:

Mr. President: I am sure it was an inadvertence on your part when you said that the University of Pittsburgh was the second biggest taxpayer. I am sure you meant the second biggest employer, but it is just such a Freudian slip that is involved in this situation. I am sure that you have confidence that this matter will receive attention but I believe our Planning Department should have seen to it that the attention was received before this matter was submitted for us to approve.

The Chair:

I thank you for the correction. I did mean the second largest employer. Thanks for not letting me go any further.

Mr. Baskin:

Mr. President: I think, for the record, just as a matter of fairness to Pitt University, I was just as interested in the parking situation as the other members of Council some years ago and since that time, Schenley Plaza has been metered and we have been insisting on parking provisions, but approximately fifteen months ago, as you may recall, this matter came up again and the University was willing to back up with its guarantee the bond of our Pittsburgh Parking Authority for a parking facility that was to be built in the area to take care of some of these needs. The delay was not caused by Pitt University, but by the hospitals in the area and the Parking Authority because of the reluctance of the hospitals to cooperate. I think this brings to the attention of the University of Pittsburgh and to the public that we want parking taken care of and that some thought should be given to meet these needs. I think you will find, as everybody acknowledges, in the future, the Acting Chancellor will probably see to it that the plans are carried out.

And the titles of the bills were read and agreed to.

Mr. Counahan:

Mr. President, Mrs. Dorothy Richardson is here. She represents CASH—Citizens Against Slum Housing—and she requests permission of Council to make a statement relative to the housing code enforcement. I know that we are going to be a little short in regards to time, so I think she will be brief.

Mrs. Richardson:

I am Mrs. Dorothy Richardson, Acting Chairman for CASH—Citizens Against Slum Housing. CASH represents nine neighborhoods which have been organized largely as a result of the Economic Opportunity Act of 1964. I am here today representing hundreds of people, some of whom live in slum housing who, like the Mayor of Pittsburgh, can no longer tolerate flagrantly bad housing conditions. Last week, Mayor Barr presented a ten-point program aimed at eliminating slum housing and saving deteriorating neighborhoods. We were happy to learn of the goals of the Mayor's program because those are our goals, too. We think it is a good program. What we want to know today is, who will run these programs? How will they be run? When will they start? When will citizens be invited to the planning meetings?

Specifically:

- 1) When will a coordinated inspection and enforcement program in the Bureau of Inspection begin?
- 2) What exactly is meant by stiff penalties for code violators?
- 3) What different provisions will the new fire prevention code include?
- 4) When will a centralized Relocation Agency be established and who will run it? Will citizens play a part in planning it?
- 5) We would certainly hope that the

Relocation Agency would be well established before vastly accelerated demolition of condemned structures take place.

6) What is a special planning Magistrate's Court for violators? How will it operate? Will it be the same as a Housing Court?

7) The Mayor called for a Citizens' Advisory Group. We don't want to be just an advisory group. We want to help plan, execute and evaluate, just as President Johnson declared in the Economic Opportunity Act of 1964.

8) When will over-all coordination of code enforcement with other redevelopment activities begin?

When the Mayor announced his ten-point program, he said it would get under way immediately. That was two weeks ago. We have come to City Council to tell you how concerned we are about the timing of these programs and to ask you to join in helping the Mayor to implement this program now. These are our neighborhoods. This is our City and these are our children who must not be denied the opportunity to grow up in a healthy, happy, productive environment. We intend to make certain they have that opportunity. Thank you.

Mr. Fagan:

I might say, for the information of Mrs. Richardson and for the information of the organization, CASH, that the jurisdiction and the operation of this will come under the Director of Public Safety and the Bureau of Buildings Inspection and, of course, the Chairman of the Committee on Public Safety might care to make a statement or amplify for your information. We had this matter before us several times. We had it before us this morning, again. Chances are that Councilman J. Craig Kuhn, who is Chairman of the Committee on Public Safety, would be able to amplify what I have said to you and probably answer more fully what questions you have put to us. I recognize Councilman Kuhn.

Mr. Kuhn:

I am pleased to be able to report to Mrs. Richardson that the action they

asked about is already in progress. I introduced an ordinance today, the Ordinance amending the Building Code.

This specific ordinance will provide the Director of Public Safety and the Superintendent of the Bureau of Building Inspection with a broader and more effective legal authority for the removal of dangerous houses and other structures that are dilapidated, abandoned, and ramshackled houses or homes which have not been maintained. This authority, under existing law governing the Bureau of Building Inspection, restricts it to those buildings which are structurally unsound. This new ordinance, when it has been adopted by Council, will broaden that authority to cover a wider range of safety aspects. I won't attempt to go into all the details of this today, but this has been under study for some time. I can't begin to answer all the questions which are put because many of these are ones which will call for action by the Administrative Branch of the Government. I know that the Director of Public Safety and the Mayor's Office have a program which will be carried as far as this legislation permits, as a continuing series of legislative and administrative action. As to the point of the establishment of a Citizens' Advisory Group, this, too is a matter for the Administrative Branch of the Government, the Executive Branch. If the Mayor so determines, we will certainly want to see that these advisory groups have an effective voice of the people. We will rely heavily on citizens' groups like your own. I think, too, that your organization, and others like yours, other constituents of the Citizens Against Slum Housing, can do much to provide assistance when it does come to the need for taking legal action. I would like to see this new amendment to the Building Code adopted. It will be necessary to test some of its provisions. In order to do that, it will be necessary for people to come to court and the people who come to court will have to be citizens who know these things. In the past, citizens' organizations have sometimes been more slow to respond to the need to appear in court than they have to bring it to the attention of Council. We hope your organization, and the others like your organization, will carry forward in the future to give us the support we will need in our com-

mitment to enforcement of this legislation which Council and the Mayor's Office are giving.

I would again refer to the Director of Public Safety with respect to the Fire Prevention Code. I know that this matter has been under careful study in the Safety Department and the Law Department. Their determinations are important to all of us with respect to fire prevention, fire insurance rates, etc.

We are glad to have you here and I know that the Director of Public Safety will rely heavily on your help when it comes to enforcement of this program.

Mr. Fagan:

Does that satisfy you, Mrs. Richardson?

Mrs. Richardson:

We would like to have some ABC answers. It was released in the Press and it still does not tell you where or when. We are living in the neighborhood and we are hurting. We would like to have a definite answer.

Mr. Fagan:

As many times as you have been here,

you know all you have to do is write the President of Council or any member of Council and ask for a hearing on anything you want. If you want a public hearing on this, all you have to do is write us. We are violating the rules of Council today by listening to you during the regular Council meeting. We have a Zoning Hearing that was to start five minutes ago. These people are here to be heard. They wrote the Planning Commission and took it up with Council.

Mr. Kuhn:

I would like to say that if Mrs. Richardson will provide me with a copy of her statement, I will be glad to answer her questions. I am sure if Mr. Fagan had known she was going to be here today, we would have arranged to have the Director of Public Safety present so that I could acknowledge her questions in detail. These questions must be answered by the Director of Public Safety and the Mayor's Office, and we will provide you with an answer as soon as we can. We couldn't have those answers for you directly, today, but we certainly want to see that you have the answers to your questions as soon as possible.

And on motion of Mr. Counahan,
Council Adjourned.

No. 376.

CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency, when special appropriations may be made to meet the same; and

Whereas, The Deputy Director of the Department of Public Works in letters addressed to the Mayor and City Controller under date of March 1, 1966, has stated that during the weekend of January 22, 1966, the City was blanketed by an accumulation of approximately fifteen inches of snow and again during the weekend of February 5, 1966, another storm deposited in excess of six inches of snow, thereby blocking streets and highways and causing interruption of normal business activities so as to create emergency conditions requiring the renting of all available outside equipment for snow removal and the working of city personnel overtime; and

Whereas, The Deputy Director of the Department of Public Works has estimated that the costs of the snow removal, including overtime and rented equipment, will approximate \$230,112.50; and

Whereas, The foregoing appears as a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, David Stahl, Deputy Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to City Council the existence of an emergency requiring the appropriation of the sum of \$230,112.50 to the following Code Accounts:

Which motion prevailed.

The Chair (Mr. Fagan) asked and obtained permission to have inserted in today's minutes of Council the following editorial which appeared in The Pittsburgh Press on Friday, March 18, 1966:

RENAISSANCE: 1946-1966

WHEN Pittsburgh's Urban Redevelopment Authority was created in 1946, no one could have anticipated the enormous tasks which lay ahead, nor the hundreds of millions of dollars which were to be spent on this city's renaissance program.

Now, 20 years later, some of the results can be assessed, and they may surprise even those Pittsburghers who are reasonably familiar with the city's rapid advances in the last two decades.

In his report on Pittsburgh's progress, 1946-1966, Robert B. Pease, executive director of the Redevelopment Authority, gives credit to the unprecedented co-operation between political, business and civic leaders who have made the city's rebirth possible.

"Its prime source of momentum has been and continues to be a solid coalition of support from citizen groups, the business and civic community and governmental leaders," Mr. Pease said. "Over the past 19 years, the urban renewal program alone has accounted for more new construction and related community improvements than the city as a whole has experienced in any previous 50-year period of its two centuries of development."

On renewal work alone, more than 331 million dollars have already been spent, and that figure will rise rapidly to well over 400 million dollars by the end of the year. And this is just the beginning. Additional huge sums are already committed to the ever-widening program.

Significantly, 93 per cent of the con-

struction funds have been provided by private capital. There is no better example of the progress which can be achieved when a city's political and business leaders work together.

Particularly noteworthy are the figures for Gateway Center, conceived in 1947, and begun in 1950. This was the first redevelopment program in the United States to direct major public-private action toward solving the post-war problem of downtown blight.

So far, 135 million dollars have been invested in Gateway Center, and taxable assessed values on the 23-acre site are now almost six times greater than in 1947. Employment is more than five times greater in this area. And now the Equitable Life Assurance Society, developer and owner of Gateway Center, plans to construct another high-rise office building overlooking the Monongahela River.

Equally encouraging is the progress at the 60-million-dollar Allegheny Center. This "city within a city" has become a center for a 275-million-dollar redevelopment program throughout the North Side.

So widespread is the renewal program that few Pittsburghers can comprehend its entire scope. In the Lower Hill redevelopment area, 90 million dollars have already been spent or committed and another 65 million dollars worth of construction is scheduled. In East Liberty, \$13,500,000 in private capital has been invested, \$29,600,000 worth of private improvements are scheduled and four million dollars worth of City and Federal funds are being spent for public improvements.

And so it goes. Additional millions are to be invested in the Chateau Street West industrial development area, the Bluff Street-Duquesne University renewal district, the North Side Stadium redevelopment area, the University of Pittsburgh upper campus, the Oakland medical center, Jones & Laughlin industrial park. The list goes on and on.

In 1946, few Pittsburghers would have believed that so much progress could be

achieved in 20 years. But despite these splendid advances, much remains to be done, particularly in housing, so much of which is now sub-standard.

As long as the present co-operation between business and government continues, however, it appears quite possible that the next 20 years will bring progress of similar or perhaps even greater magnitude.

The Chair:

I presume most of you read it. I would also like to say that everything that has happened as far as the Allegheny Conference, the Urban Redevelopment Authority, the citizens' groups

organized labor, everybody played a part in the Renaissance of the City of Pittsburgh. All of this work, such as Gateway and Allegheny Centers and the Civic Arena and, later, with the help of Charles Leslie, the new Stadium, all of that had to pass over the desks of the members of City Council, along with the Mayor. We have had hundreds of hearings on all of these important matters. The newspapers give us some credit for what we have done. It is a very good editorial and we appreciate what The Pittsburgh Press has done.

And on motion of Mr. Counahan,

Council adjourned.

Whereas, The Deputy Director of the Department of Public Works in letters addressed to the Mayor and the City Controller under date of March 16, 1966, has stated that during the weekend of January 22 and on February 5 heavy snow blanketed City streets rendering it impossible for the Bureau of Refuse collection forces to maintain their regular collection schedules; and that to relieve the condition created by the heavy snow falls it was necessary that additional trucks and crews work Sundays and holidays in the collection of the excess garbage and rubbish before it was possible to return to a normal schedule; and

Whereas, The payment of reporting time to crews unable to work because of the heavy snow falls and unusual sick-leave payments increased the deficit in Code Account No. 1676, Wages, Regular Employees, January to March, Division of Collection and Disposition, Bureau of Refuse, requiring the transfer of the sum of \$22,000 to Code Account No. 1676 to meet payrolls to March 31, 1966; and

Whereas, The foregoing appears as a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, we, Joseph M. Barr, Mayor of the City of Pittsburgh, and John T. Hughes, Deputy Controller of

the City of Pittsburgh, do hereby certify to City Council the existence of an emergency requiring the transfer of the sum of \$22,000 to Code Account No. 1676, Wages, Regular Employees, January to March, Division of Collection and Disposition, Bureau of Refuse, to provide for payment of wages to March 31, 1966.

MOTIONS AND RESOLUTIONS

Mr. Counahan presented

Whereas, The talented Dragons culminated their fine season by winning the Pennsylvania Catholic Inter-scholastic Class B title by defeating Scranton Cathedral; and

Whereas, This team displayed its championship caliber by responding to all challenges from its strong Pittsburgh Diocesan Class B opponents and even tougher competition in the regional playoffs; and

Whereas, Credit for the well-disciplined and aggressive play of the St.

George team must be attributed to Coach Abby Bishop, who has compiled a most impressive record at St. George's, winning two state titles in the past 11 years; and

Whereas, St. George's basketball team has brought great honor to its school and the City of Pittsburgh the past season; Therefore, Be It

Resolved, That the Mayor, Honorable Joseph M. Barr, and the Members of City Council do hereby extend their personal and official congratulations to Coach Abby Bishop and his state champions and wish them continued success in the years ahead.

Whereas, The Schenley High School basketball team has climaxed its great 1965-66 season by winning the Class A championship of the Pennsylvania Interscholastic Athletic Association, with a convincing 74-64 triumph over the Eastern Regional Representative, Chester High School, last Saturday night; and

Whereas, The Schenley team achieved this goal of becoming the 1966 State Champions not only through the unstinting individual efforts of all the members of the squad, but also through the spirit, discipline and teamwork which reflects the outstanding coaching of Willard Fisher and his assistants; and

Whereas, The Schenley team withstood the pressure of several western regional competitors to earn its place in the Pennsylvania state final and thus bring to the Pittsburgh City League its first state championship since 1937; and

Whereas, This winning team effort has given great distinction not only to the Schenley players and their coach, but to the Pittsburgh Public School system and to the City of Pittsburgh,

Now, Therefore, Be It Resolved, That I, Joseph M. Barr, Mayor of the City of

Pittsburgh and the Members of the Council of the City of Pittsburgh, do hereby extend official congratulations to the members of the Schenley High School basketball team and their mentor, in recognition of their outstanding play during the season of 1965-66 which they capped by winning the Pennsylvania Class A state championship and thus brought great honor to their school, and to Pittsburgh and its people.

Whereas, Under the provisions of the United States Housing Act of 1937, as amended, the Public Housing Administration is authorized to provide financial assistance to local public housing agencies for undertaking and carrying out preliminary planning of low-rent housing projects that will assist in meeting this goal; and

Whereas, The Act provides that there shall be local determination of need for low-rent housing to meet needs not being adequately met by private enterprise and that the Public Housing Administration shall not make any contract with a public housing agency for preliminary loans for surveys and planning in respect to any low-rent housing projects unless the governing body of the locality has by resolution approved the application of the public housing agency for such preliminary loan; and

Mr. Jordon moved

Which motion prevailed.

And the bill was read a second time.

Mr. Jordon:

Mr. President,

I would just like to repeat for the record what I brought out in Committee

and that is, I intend to vote against Bill No. 215 and, of course, this would mean I would also be opposed to Bill No. 213. The reason is that I feel the construction of this kind of activity in this kind of neighborhood would be detrimental. Visiting that community, I found, that it is a highly developed community. The homes are moderate to expensive homes. Frankly, I think this kind of activity, located across the street from this property, would cause the property to depreciate. In looking at it, I noticed down the street there is a drivein, but the area is different; it is not as highly developed. I visited other drivein-sandwich shops in other areas of the City and I noticed the kind of activity it generated. I think if I were living across the street from this piece of property, I would not want this type of activity to be located across from me. Therefore, If I would not approve it for my neighborhood, I cannot, in good conscious, say that it is alright for someone else's community.

Mr. Flaherty:

Mr. President,

I wasn't here, I was out of the City, when this matter came up at the Committee hearing. Since that time, I have acquainted myself with the Bill and have viewed the premises. I recognize the change in this ordinance will have little effect on the citizens of Pittsburgh, and I am not ignoring the fact that a restaurant has a place in a community. However, I do feel a structure of this type would have a detrimental effect on the residential property of our neighbors in Penn Hills Township. I hope our surrounding communities will co-operate by observing a good-neighbor policy toward us. Therefore, I am going to vote against the change.

Mr. Kuhn:

Mr. President,

In voting for this ordinance, I don't mean to be regarded as ignoring the interests and attitudes expressed by the citizens of Penn Hills Township who came in, in opposition to it, and I don't believe, in voting in favor, I am regarding them as being any less entitled to our consideration as would be the

citizens of Pittsburgh, because our zoning considerations do not stop at the City line. I would think the same would be considered by the zoning boards and municipal councils in neighboring municipalities with problems coming up there that affect our citizens across the line. I think the Planning Commission took all that into account when it made its recommendations to us. I have been cut and seen the section and I think all these matters have been very surely considered when the Planning Commission made its recommendations to us. I just wanted to say this because I wouldn't want the inference to be drawn that by voting in favor of it, that any of us were voting against the interests of the neighboring municipalities. The surrounding municipalities are all mature and sophisticated in the question of zoning considerations, and City Planning, in these zoning considerations, does not stop at the City lines and we would expect the same respect to be given to our citizens by our neighboring municipalities' zoning and planning bodies.

Mr. Leslie:

Mr. President,

I wonder if anyone here can answer a question for me? I am told that part of the land across from these homes that they speak of is zoned to permit this use at the present time. They have acquired more to make it more economical for this type of operation because of the parking area. When we rezone here, we are rezoning the land they acquired to give them more land for parking. I am told this restaurant can go in there by just moving the structure on the plan "X" number of feet. Now, it seems to me if they can legally build that there—of course they may not, they may not be able to park enough automobiles—some other business can go in there. I am told this by someone from the Planning Commission. I wonder if any members of Council know anything about this.

The Chair:

In other words, the land in back of the bank is zoned commercial?

Mr. Leslie:

Yes, and part of the frontage.

The Chair:

That's right.

Mr. Leslie:

They are now adding to this to give them more room to park. We have to rezone the part they are acquiring but they can go in there and build a Winky's. It just won't be as large an operation.

Mr. Jordon:

Mr. President,

I haven't heard this before, but I would assume that as with any commercial activity, there are certain regulations which we require for parking. If that were not so, the Planning Commission would not be requesting, or presenting this on behalf of the petitioners, to change the zoning. In any event, this would not change my position. I would still vote against it because I would still be opposed to this type of activity across the street from these types of homes. Even if they could put it in a corner, it certainly would not be done with my approval.

Mr. Baskin:

Mr. President,

I am just wondering, in view of this information which Mr. Leslie brought out, and in view of what I have been told by the Planning Commission that the zoning by Penn Hills Township has been commercial in that neighborhood anyway, and we may be doing the home owners a disservice by forcing a structure right on the boundary line, I would like some further information on this and I am wondering if I can recommit this to Committee?

Mr. Jordon:

I certainly am not opposed to recommitting this to Committee but it would seem to me if this would be the situa-

tion, the Planning Commission would have made it known. We can raise these points; it may give us a chance to delay action on it—to reconsider, I hope. If this is why, as a way of giving us another chance to reconsider, I would be in favor of it. I think, however, if this were the case, the Planning Commission would have made it known to us.

The Chair:

The Planning Commission was here for the purpose of answering any questions and apparently the point wasn't raised. Since then, there have been other investigations made and consultations held.

Mr. Baskin moved

That Bill No. 215 be recommitment to the Committee on Planning and Redevelopment for further consideration.

Which motion prevailed.

Also

Bill No. 213. Mr. Counahan:

Mr. Chairman, I would like to ask Mr. Kuhn, on Bill No. 493, that Article 9 has been deleted, in other words, scratched out. Is it going to be in the Bill or what are we going to do with it?

Mr. Kuhn:

Mr. President, Article 9 was included in the Bill as originally submitted to Council because it does affect much of the activities of the Bureau and fire-prevention activities. It is not, however, a part of the Ordinance, since there is a State law relating to the subjects covered by it. As a consequence, in Committee last week, the Ordinance was amended to delete Article 9 on dry cleaning and dyeing establishments from the Ordinance that we are adopting today, but to provide that it may be included in the printed copies when it is finally adopted.

I might also say that because this Ordinance was one of comprehensive scope, and has been the subject of substantial review by the Department of Public Safety and the Bureau of Fire, with many organizations of interest in the subject matter, its enforcement and effective date has been set forward for a period of 160 days from the date of its adoption. Section 1.16 provides that it will take effect 160 days after its approval. This will give an opportunity to the Department of Public Safety to

make the Ordinance available in printed form and when it is made available in printed form, the provisions that you have called to our attention in Article 9 will be clear. It will be supplementary, but, nevertheless, a part of the State law that relates to the establishments as covered by Article 9.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

Mr. Baskin	Mr. Kamyk
Mr. Counahan	Mr. Kuhn
Mrs. D'Ascenzo	Mr. Lesile
Mr. Flaherty	Mr. Fagan

Ayes 9. Noes none.

MOTIONS AND RESOLUTIONS

Mr. Kamyk (for Mr. Jordon presented

No. 637. Whereas, Pursuant to Ordinance No. 233, approved July 8, 1960, and in the manner prescribed by the Urban Redevelopment Law, Act of May 24, 1945, P. L. 991, as amended, the Redevelopment Proposal for Redevelopment Area No. 10 in the Seventh, Eighth, Eleventh and Twelfth Wards of the City of Pittsburgh was approved; and

Mr. Holland F. Kelley:

Mr. President, I know this might be not in keeping with the usual procedures. My name is Holland F. Kelley. I came for one reason, number one, to see that the presentation was made for repeal of Ordinance 96. For the second reason, before any action can be taken on it by Council, we should be allowed to present our reasons why it should be repealed so that you can give it intelligent thought and consideration.

The Chair:

Wait a minute. Ordinance 96 is merely a matter where the cab driver takes out a license. As far as the question that you have asked for a hearing, that is a matter for the Public Utility Commission.

Mr. Kelley:

The question is not for the Public Utility Commission, sir. That is the reason I have appeared here.

The Chair:

We do not have hearings during legislative meetings. In the first place, we have referred your request, which will be before the Committee tomorrow at 2 o'clock.

Mr. Kelley:

Mr. President, as a citizen and spokesman for the people, may I make my statement, please?

The Chair:

It is up to Council.

Mrs. D'Ascenzo:

I move the gentleman be permitted to make his statement.

Mr. Counahan:

I second the motion.

The motion prevailed.

The Chair:

Before you start to make your statement, let me say for your information, Ordinance 96 states it is an Ordinance to implement the Act of Assembly approved May 21, 1921, P. L. 1053, by providing for the licensing of drivers of taxicabs or other motor vehicles carrying passengers for hire, and providing penalties for violations.

Mr. Kelley:

It so states further in the Ordinance, as passed in 1954, that said license shall be issued to any driver employed by a firm approved by the PUC. This blocks any attempt on the part of the citizens of Pittsburgh to receive a one-man taxi license. The PUC has no ordinance or statute on this. He has to belong to a firm or he cannot operate in the City of Pittsburgh. Therefore, I claim that Ordinance 96 interferes with free enterprise and attempts to supersede the statute of the PUC.

The Chair:

You have a right to your opinion. The law is the law and has to be followed. The PUC regulates the business whether it is passenger cars or taxicabs or trucks or what have you and this is where you go to get your permit to operate.

Mr. Kelley:

Mr. President, I will repeat that the ordinance states "a driver for a firm approved by the PUC." One man takes a license, they do not represent a firm as so construed, and I submit to you that Ordinance 96 interferes, limits, and discriminates against one-man taxi operating against free enterprise. I wish you would reconsider the wording of the ordinance, sir.

The Chair:

Might I say for your information, Mr. Kelley, that tomorrow, in all likelihood, when this request of yours comes before the Committee, it will be the Committee on Public Safety of which Mr. Craig Kuhn is Chairman, chances are it will be referred to the Law Department for a decision.

Mr. Kelley:

Mr. President, did you not inform me that this had been referred to the Law Department for a decision? Did you not make a statement to the public press that it was being referred to the Law Department? Did the Law Department render a decision?

The Chair:

Do you remember the last conversation you had with me? I said these matters were always taken up with the Law Department.

Mr. Kelley:

As per our telephone conversation, you said it will be presented to the Law Department for a decision.

The Chair:

Then we received your communication last Thursday, in writing.

Mr. Kelley:

You received a prior communication from me, sir.

The Chair:

The last conversation I had with you was by telephone. I also received a telegram. This is all a matter of record. In the telephone conversation, I told you certain things about the PUC—

Mr. Kelley:

I understand the ruling of PUC. Don't try to educate me on the PUC. I asked the question, why wasn't this referred to City Council at the time I made my original request six weeks ago? Why am I told a second time that it has to be referred to the Law Department?

The Chair:

It is now being done in the proper form. It is going to the Committee tomorrow and whatever the Committee decides, will be done.

Mr. Kelley:

I am impressed by the dispatch with which you can suspend the rules due to the delay on the part of the President in acting on Ordinance 96.

The Chair:

The suspending of the rules is a matter of rules and regulations and procedure to go ahead and read bills that have been before Committee and then present them to Council.

Mr. Kelley:

May I expect such dispatch next Monday? This has lain dormant, gathering dust, too long. I have communicated with you these past several weeks. It took a second communication to get even passive action on it.

The Chair:

Will you repeat the conversation that we had over the telephone?

Mr. Kelley:

You informed me—it is very vivid in my mind, sir—you informed me that it had been referred to the Law Department for study and you would advise me of what the decision was. I told you, if necessary, I would blast you and I will blast you, if necessary.

The Chair:

I told you to go ahead and blast me because I have had a lot of bricks thrown at me in the past.

Mr. Kelley:

You also told me you had a tough hide and I told you mine was just as tough, but younger. We had a good laugh.

The PUC has no objection to giving one man a license if the City of Pittsburgh will permit it to use the streets and he cannot as long as Ordinance 96 is on the books.

Mr. Baskin:

Mr. President, I think we are wasting a lot of time. The matter was referred to the Law Department by the President of Council and by City Council, several weeks ago. They have been studying it. They are not ready to take it up as a bill. The hearing will be held either tomorrow or next week, at which time we will want representatives of the Law Department and of your group, and other interested groups, in attendance. There will be no way of passing it immediately. This is a public service that requires study and consideration. That is what Council is going to do. If you don't like the fact that we are moving on it less speedily than you want, that is your privilege.

Mr. Kelley:

It isn't what I like. I am seeking clarification. I am asking, and I should have an answer to it. I would like to know why, when it was supposed to be presented to the Law Department for consideration and study, instead of that, the entire matter was turned over to the PUC for prosecution?

The information I want is, why, in six weeks time, your Law Department moves so slowly that they cannot read a bill that was forcibly passed and hurriedly passed, in 1954? You have learned men in your Law Department. Does it take them that long to see that this bill interferes with free enterprise?

Mr. Baskin:

That is an argument that will be taken up during the hearing.

Mr. Kelley:

When will the hearing be set up?

Mr. Baskin:

I believe tomorrow to be too short a notice.

Mr. Kelley:

It is not too short for me. I have been waiting for this for a long time.

You expect them to act on this now? They couldn't act on it in six weeks time, but you do expect them to act on it now?

The Chair:

Do you understand all the ramifications connected with transportation, such as licensing, and all of the things that go with it?

Mr. Kelley:

That is not the concern of the City Council. That is the concern of PUC.

The Chair:

The City Council is certainly interested because we may have all sorts of lawsuits. You heard the damage suits paid out today.

Mr. Kelley:

Is there anything in Ordinance 96 that says City Council is interested in law suits and damage suits, in taxis?

The Chair:

That is what we have a law department for.

Mr. Kelley:

Mr. President, I submit to this Body that this thing is being whitewashed, being swept under the rug.

The Chair:

This legislation was passed in the days when Mr. Gallagher was President of Council and Mr. Lawrence was Mayor.

Mr. Kelley:

Are we to disregard some of the Constitution of the United States because John Hancock was there? We act on Ordinance 96, now.

The Chair:

In the City of Pittsburgh, the Mayor, who is the chief magistrate, the Presi-

dent of Council, the members of Council, do you think they have a right to give you to operate jitneys?

Mr. Kelley:

I didn't ask for that. What we are asking is the removal of the restrictions of Ordinance 96 so they can get a permit from the PUC.

Mr. Baskin:

Mr. President, maybe we ought to straighten the record out. I think the telegram the gentleman refers to was sent to Council on April 1. Then it was entered into Council on April 4. It was referred to the Law Department on April 6, which was the earliest we could refer it to them after Committee meeting. On April 13, we received the answer, a copy of which went to Mr. Kelley and the Department of Public Safety, who also met with representatives of that group. Now, last week, you received another letter from the committee which was promptly introduced today and which will be promptly given to Committee tomorrow and we will have a prompt hearing on it. The date of the hearing will be decided tomorrow.

Mr. Kelley:

Can we be assured to have it either tomorrow or next Tuesday?

Mr. Baskin:

Tomorrow, we will give you a definite date for the hearing.

Mr. Kelley:

That will be a hearing before a committee or full Council?

Mr. Baskin:

Council sits as a committee and then as full Council.

Mr. Kelley:

Thank you. At least we are getting some definite action.

The Chair:

For your information, the Chairman of the Committee on Public Safety is absent today on important business but he will be probably here tomorrow.

Mr. Counahan:

May I request a question on adjournment?

And the question recurring on the motion that Council adjourn,

Council adjourned.

No. 700. Resolution approving application to be made to Housing and Home Finance Agency for a Federal Grant to assist in financing for acquisitions and development, in accordance with plans for the allocation of land for open space purposes, of certain land known as the Manchester Playground and Ballfield.

Whereas, Title VII of the Housing Act of 1961, as amended, provides for the making of grants by the Housing and Home Finance Administrator to States and local public bodies to assist them in the acquisition and development of permanent interests in land for open-space uses where such assistance is needed for carrying out a unified or officially coordinated program for the provision and development of open-space as part of the comprehensively planned development of the urban area; and

Whereas, The City of Pittsburgh (herein sometimes referred to as "Applicant") desires to acquire and develop certain land known as Manchester Playground and Ballfield, which land is to be held and used for permanent open-space land for playground and ballfield uses; and

Whereas, Title VI of the Civil Rights Act of 1964, and the regulations of the Housing and Home Finance Agency effectuating that Title, provide that no person shall be discriminated against because of race, color, or national origin in the use of the land acquired and/or developed; and

Whereas, It is recognized that the contract for Federal grant will impose certain obligations and responsibilities upon the Applicant and will require among other things (1) assurances that families and individuals displaced as a result of the open-space land project will be relocated into decent, safe and sanitary housing, (2) compliance with Federal labor standards, and (3) com-

pliance with Federal requirements relating to equal employment opportunity; and

Whereas, It is estimated that the cost of acquiring said interest will be \$583,000; and

Whereas, It is estimated that the cost of development of said land will be \$100,000; and

Whereas, It is estimated that the cost of necessary demolition and removal of improvements on said land will be \$30,510; and

Whereas, It is estimated that the total amount of relocation payments to be made to eligible site occupants displaced from property to be acquired will be \$10,200; and

Whereas, The Council of the City of Pittsburgh believes that it would be to the best interests of the City and desires to give its approval to make an application to the Housing and Home Finance Agency for a grant as herein-after described:

Now, Therefore, Be It Resolved by the City Council of the City of Pittsburgh as follows:

1. That an application be made to the Housing and Home Finance Agency for a grant in an amount authorized by Title VII of the Housing Act of 1961, as amended, which amount is presently estimated to be \$400,255, and that the Applicant will pay the balance of the cost from other funds available to it.

2. That adequate open-space land for the locality cannot effectively be provided through the use of existing undeveloped or predominantly undeveloped land.

3. That the Director of Planning and Development, is hereby authorized and directed to execute and to file such application with the Housing and Home Finance Agency, to provide additional information and to furnish such documents as may be required by said Agency, and to act as the authorized correspondent of the Applicant.

4. That the proposed acquisition and development is in accordance with plans for the allocation of land for open-

space uses, and that, should said grant be made, the Applicant will acquire, develop, and retain said land for the uses designated in said application and approved by the Housing and Home Finance Agency.

5. That the United States of America and the Housing and Home Finance Administrator be, and they hereby are, assured of full compliance by the Applicant with regulations of the Housing and Home Finance Agency effectuating Title VI of the Civil Rights Act of 1964.

6. That there exists in the locality an adequate amount of decent, safe, and sanitary housing which is available to persons displaced as a result of the open-space land project, at prices which are within their financial means, and which are not generally less desirable in regard to public utilities and public and commercial facilities than the dwellings of the displaced individuals and families,

MOTIONS AND RESOLUTIONS

Mr. Baskin presented

No. 736.

Whereas, The Public Auditorium Authority of Pittsburgh and Allegheny County desires to enter into a ten-year lease with the Hockey Club of Pittsburgh, Inc., for the presentation of National League Hockey games in the Civic Arena commencing October, 1967, and has submitted a proposed lease for this purpose;

Whereas, Under the agreement between the Public Auditorium Authority of Pittsburgh and Allegheny County, the City of Pittsburgh and County of Allegheny, authorized by Ordinance No. 151, approved April 2, 1958, the Authority is required to submit to the Mayor and Council of the City of Pittsburgh all contracts and leases having a term of three years or longer, and such contracts and leases are presumed not to be unsatisfactory if no written objections are made within thirty days, and

Whereas, The Authority desires to execute the proposed lease prior to June 12, 1966 in order to enable the Hockey Club of Pittsburgh, Inc., to qualify for participation in meetings of the National Hockey League to be held in Montreal on that date, it is necessary that the Mayor and Council of the City of Pittsburgh indicate whether there are any objections to the lease prior to the expiration of the thirty day period, and

Whereas, The proposed Agreement of Lease has been reviewed and the Mayor and Council of the City of Pittsburgh having no objection thereto;

Now, Therefore, Be It Resolved, that the proposed Agreement of Lease between the Public Auditorium Authority of Pittsburgh and Allegheny County and the Hockey Club of Pittsburgh, Inc.,

which lease is to be for a term of ten years beginning in June, 1967, with ten-year renewal options at terms to be agreed upon by the parties, has been reviewed by the Mayor and Council of the City of Pittsburgh, and the Mayor and Council have no objection thereto.

Which was read.

Mr. Baskin moved

The adoption of the resolution.

Mr. Baskin:

Mr. President, It is a little out of order but I think, for the record, the lease should be explained. It is a ten-year lease for the proposed hockey team. As you know, under the formation of the Civic Auditorium between the City and County, any lease that has a duration of more than three years must be presented to City Council and to the County Commissioners for approval. Each, the City Council and the Allegheny County Commissioners, is given 30 days to approve or disapprove the lease, or any of the terms thereof. Normally, we have 30 days in which to act on the lease. However, on June 13, there is a meeting of the National Hockey League to determine whether the City of Pittsburgh will be granted a franchise for a major league hockey team so that it is necessary, as a prerequisite of the application, that the group of Pittsburghers have the lease of the Arena to show to the Hockey League. Therefore, we are waiving the 30-day period for City Council approval. The Resolution states we have no objection to the lease and I understand the Commissioners will take similar action sometime this week. The terms of the lease are basically the same as the terms of the lease for the Hornets, except that the income for the Arena will be higher under this lease both on a minimum-rental basis and also on a percentage basis. We are very hopeful the people applying for the franchise for Pittsburgh will be granted it on June 13. The Arena has made preparations for installation of additional seats, and we are hopeful that we will have a National League Hockey team operating here next year.

And the question recurring on the

adoption of the Resolution, the Motion prevailed.

Mr. Jordon presented

No. 737. Whereas, Pursuant to Ordinance No. 233, approved July 8, 1960, and in the manner prescribed by the Urban Redevelopment Law, Act of May 24, 1945, P. Whereas, The Urban Redevelopment Authority of Pittsburgh has submitted, by letter dated June 1, 1966, a form of Contract for Disposition by Sale of Land for Private Redevelopment by and between the Urban Redevelopment Authority of Pittsburgh and Bell-Stern Furniture Co., in connection with Parcel B-6a in the Eleventh (11th) Ward of the City of Pittsburgh in Redevelopment Area No. 10; and

Whereas, The Council of the City of Pittsburgh believes that the proposed Contract is in the best interests of the City of Pittsburgh and desires to give its approval in accordance with provisions of the Urban Redevelopment Law.

Now, Therefore, Be It

Resolved, That the form of Contract for Disposition by Sale of Land for Private Redevelopment by and between the Urban Redevelopment Authority of Pittsburgh and Bell-Stern Furniture Co., submitted to this Council by the Urban Redevelopment Authority of Pittsburgh by letter dated June 1, 1966, in connection with Parcel B-6a in the Eleventh (11) Ward of the City of Pittsburgh, be and the same is hereby approved, it being in substantial conformity with the Redevelopment Proposal for Redevelopment Area No. 10, in the Seventh, Eighth, Eleventh, and Twelfth Wards of the City of Pittsburgh.

Whereas, The Urban Redevelopment Authority of Pittsburgh is desirous of conveying .94 acres thereof to the St. Peter's German Evangelical Lutheran Cemetery for use in connection with its existing properties located adjacent thereto.

Whereas, The Director of the Department of Public Works in letters addressed to the Mayor and the City Controller under date of May 31, 1966, has stated that during the period, April to June, 1966, due to unanticipated sick-leave claims and to the necessity of working two additional trucks and crews to keep collection of garbage and refuse on schedule, the Bureau of Refuse is unable to meet payroll charges for the period ending June 30, 1966; and

Whereas, The Director of the Department of Public Safety, in letters addressed to the Mayor and the City Controller under date of June 15, 1966, has stated that in 1964 and thereafter the existence of ramshackle dwellings in the

City caused the Mayor and City Council to direct the Bureau of Building Inspection of the Department of Public Safety to accelerate its program of condemnation and demolition of unsafe and unsightly structures; and

Re: Bill No. 851

Gentlemen:

Under date of June 29, 1966, the City Clerk submitted a written request to this Department to determine the legality of an amendment to Bill No. 851, a transfer ordinance which originally provided for the transfer of funds to Code Account No. 1494, Department of Public Safety. This Bill was subsequently amended to include the transfer of funds to Code Account No. 1687, Department of Public Works.

This Department is of the opinion that the amendment is legal, provided it has been properly introduced in City Council, and received the same consideration and normal procedure as applied to the original ordinance. The fact that it contains two transfers in itself does not make the bill illegal.

Very sincerely yours,

LOUIS DADOWSKI
Deputy City Solicitor

In reply to your request of June 29, 1966, for report on the above matter, please be advised as follows:

On June 9, 1966, James J. Hughes, Director of the Department of Lands and Buildings, wrote this department requesting that we prepare legislation to authorize the above purchase. We did so, and on June 17, 1966, forwarded the proposed ordinance to Director Hughes. Subsequently, Director Hughes introduced the ordinance in City Council. We understand that the ordinance was affirmatively recommended at a meeting of the Committee on Finance on June 28, 1966, subject to reports from the Departments of Law, City Planning, Parks and Recreation and Lands and Buildings. We further understand that the ordinance will come up for final passage on July 1, 1966.

We have discussed this matter with Director Hughes and understand that he has prepared a detailed report for your Honorable Body under date of June 29, 1966. That report outlines the history of this matter and indicates that the proposed purchase was initiated by the Department of City Planning on or about June 6, 1966. As above noted, the only function which this department served in this matter was to prepare the proposed ordinance at the request of Director Hughes.

DEPARTMENT OF
LANDS AND BUILDINGS

George Boxheimer, City Clerk
Office of The City Clerk
City Council Chambers
City of Pittsburgh

Dear Sir:

I am in receipt of your letter dated June 29, 1966, in which you state the following:

"At a meeting of the Committee on Finance held Tuesday, June 28, 1966, Bill No. 847, an Ordinance authorizing purchase from Anna Meritt, et al, Arlington Heights Playground property, 16th Ward, at Devlin Street and Castle Avenue, for \$30,000.00 plus costs, was read and returned to Council with an affirmative recommendation, subject to reports thereon from the Departments of Lands and Buildings, Law, City Planning and Parks and Recreation."

The following is a report on Bill No. 847 from the Department of Lands and Buildings.

At a meeting held in the office of the City Planning Commission on March 15, 1966, attended by Bernard Artman, Developer; Attorney Leonard M. Mendleson; Lawrence J. Koch, Appraiser of the Department of Lands and Buildings; and Tony Cortese of the City Planning Commission, the purchase of this property was discussed. At this meeting, Mr. Cortese stated that John Mauro has established a price of \$25,000.00 for this parcel of land. Mr. Koch was verbally asked to make an appraisal and stated that we concurred with the price as set forth by Mr. Mauro. A copy of this letter is attached.

On June 6, 1966, I received a letter from Tony Cortese asking us to prepare an Ordinance authorizing the Department of Lands and Buildings to enter into an Agreement to purchase playground land at Arlington Heights as outlined on an attached map and deed. He stated in this letter that City Council had already approved the sale of

this land to the City at an agreed price of \$30,000.00. A copy of this letter is also attached.

I received a letter from Robert J. Templeton, Director of Parks and Recreation, on June 13, 1966, instructing us to take the necessary steps to purchase this property for \$30,000.00.

Following the usual procedure, I requested the Department of Law to prepare an Ordinance authorizing and directing the Mayor and the Director of the Department of Lands and Buildings to purchase, on behalf of the City of Pittsburgh, from Anna Meritt, et al, certain property in the 16th Ward at Devlin Street and Castle Avenue, known as the Arlington Heights Playground, for playground purposes, for the sum of \$30,000.00. On June 17, 1966, I transmitted a letter and this Ordinance to Council for their approval.

Any further details that Council wishes to know regarding this Ordinance should be referred to City Planning who handled this transaction.

Yours very truly,

JAMES J. HUGHES
Director

Dear Sir:

This is in reply to your request at a meeting held in your office on March 15, 1966, between Mr. Bernard Artman, Developer; and Attorney Leonard M. Mendleson; Lawrence J. Koch, City Real Estate Appraiser; and yourself, concerning property owned by Myrla Meritt, located on Devlin and Castle Street, 16th Ward, which the City of Pittsburgh is interested in purchasing for a proposed playground.

At that meeting, you stated that Mr. John Mauro established a price of \$25,000.00 for this parcel of ground.

After careful study and evaluation of this particular land and the entire area, we concur with the price as set forth by Mr. Mauro.

All documentary stamps are to be paid by the seller.

DEPARTMENT OF CITY PLANNING

Pittsburgh, June 30, 1966.

President and Members
City Council
City of Pittsburgh

Gentlemen:

The Department of City Planning has conducted a number of studies in the Arlington Heights area of the City in an attempt to provide needed recreational facilities, especially for residents of the Arlington Heights public housing community.

The land specified in Council Bill No. 847 is one of the last remaining flat vacant tracts of land available for a ballfield in the Arlington Heights. This tract is approximately 200 feet by 600 feet, or 120,000 square feet, which will permit the construction of a little league ballfield for the use of children in the general area.

The property has been appraised by the Department of Lands and Buildings; it has been approved as a ballfield site by the Department of Parks and Recreation. Its location has been approved by the Pittsburgh Planning Commission as in keeping with the open space and playground facilities of the Community Renewal Program, which

recommends a high priority for the establishment of a playground in this area.

Very truly yours,

JOHN T. MAURO, Director
Planning and Development

DEPARTMENT OF

Pittsburgh, June 30, 1966.

Committee on Finance
City Council
City of Pittsburgh

Gentlemen:

We wish to report as follows on Council Bill No. 847, An Ordinance authorizing purchase from Anna Meritt, et al, Arlington Heights Playground property, 16th Ward, at Devlin Street and Castle Avenue, for \$30,000.00, plus costs:

The Department of Parks and Recreation, along with the Department of City Planning, has been requesting the purchase of this property since 1963. The Arlington Heights neighborhood, particularly the eastern half, is deficient of playground space. This site is suitable for a ballfield development and is well located to serve the needs of the neighborhood.

Therefore, we recommend that Council should give this Ordinance favorable consideration.

Very truly yours,

ROBERT J. TEMPLETON,
Director

The adoption of the resolution.

Which motion prevailed.

Mr. Kuhn moved

That the Minutes of Council of Monday, June 27, 1966, and Friday, July 1, 1966, be approved.

Which motion prevailed.

Mr. Fagan:

I might say, before we adjourn the meeting, that I presume most of you read what I had to say about the Stadium Authority and what happened over the past few days. I discussed this matter with Councilman Counahan, Chairman of the Committee on Public Works and, of course, had a few words with Councilman Kamyk. I saw Councilman Leslie when I was leaving City Hall on Friday afternoon. I think Councilman Leslie has been very busy on matters affecting the Stadium Authority. I thought it was advisable that we have a committee to investigate these matters

and find out why there was so much inflation in the bids as we had been informed first. When we started out, I understood we were going to build the stadium for \$21 million. Of course, the last account I had was the Stadium would be built for about \$26 or \$27 million. The first information I had in connection with this, I had a conference with the Manager of the Employment Security Agency, or Bureau, George McGill, better known as "Scotty" and I called Mike Perry and asked him to meet me at the Hilton Hotel. The first words he told me were that the bids were opened and were now \$8 million more than anticipated. I was shocked. When I got home, I read the newspapers and listened to the radio and television and found out they were pretty close to \$10 or \$12 million more than anticipated, so I figured it was time Council looked into the matter. This morning, I hope to get a motion to appoint a committee of all the representatives of City Council to meet with the Stadium Authority to find out what could be worked out; what happened; how the architects got so jumbled up on the price and how they arrived at the estimates they had given that made us look like a lot of clowns. I was for the Stadium all the way but I'm not for it at the prices they are now quoting for the Stadium. Have any other members of Council anything to say, or I will entertain a motion.

Mr. Counahan:

Mr. President, I move that a committee be set up to investigate the facts and the bids received by the Stadium Authority.

Mr. Baskin,

I second the Motion.

Mr. Fagan:

It has been moved by Councilman Counahan and seconded by Councilman Baskin that a committee be set up to confer with the Director of the Stadium Authority, Mr. Burrell Cohen, and ascertain all the facts.

Mr. Kuhn:

Mr. President, I'd like to have clarified •

whether this is an investigating committee of City Council which, I understand, must be appointed after action by Council rather than any action by any single member of Council acting alone and, if it is an investigating committee, the scope of its authority and the scope of the subject matter it seeks to investigate. If it is a matter of receiving a report from the Stadium Authority, I look forward myself to receiving that as I am sure all of us do, since the Stadium Authority has a responsibility to report to this Body on the actions which it is taking with respect to the matters that it has competence to deal with.

Mr. Fagan:

I had asked Council to do this. Mr. Counahan made a Motion and it was seconded by Councilman Baskin. The matter will be submitted for a vote. I have a copy of a statement I received from the Stadium Authority this morning. They met last night until 11 or 11:30 o'clock. We all have a copy. Don't you have a copy?

Mr. Kuhn:

I have seen a copy of it but my question was the scope of the investigation which this Body is undertaking and that it seems to me legislative and perhaps Councilman Counahan can clarify this since he made the Motion.

Mr. Counahan:

I made a Motion that we establish a committee to make a thorough investigation and meet with and discuss with the members of the Stadium Authority in order to find out just exactly where we stand. We, at present, agreed almost unanimously to go along with this project at \$26 million, correct me if I'm wrong. Now, we're \$12 million shy. This will be a thorough investigation to see just exactly how far out of line we got—we know that—but how we got out of line.

Mr. Jerdon:

I still think Mr. Kuhn's question has not been answered. I read the Pittsburgh Press on Sunday and I saw a big head-

line saying Council was going to have a Councilmanic investigation. I hadn't been consulted about any Councilmanic investigation. I think this is the kind of action that requires a vote of Council. I think his question is a good one. I would like to know if we are going to have a Councilmanic investigation? If so, what are we going to inquire into and what is it we want to know? We have just received a report; I think we ought to know that. I think it is unfortunate, frankly, that so many statements have been made before we have had a chance to know what the investigation is. This is not the first time this has occurred but usually, when this happens, we sit down and look at what is included in the estimate and work from there to get the price down. I was in favor, and still am in favor, of a Stadium for Pittsburgh, because I think it is important for the City of Pittsburgh to provide a place for a major league team to play baseball in Pittsburgh, as well as for other sports activities. I don't think this is the time to begin to make statements and accusations. People have worked hard to bring the project to where it is. We will have to cut this in order to meet our pocket-books and that is what has to be done and I want to make sure we do not accuse anyone of mismanagement or not doing their job in any way when we know what they have been trying to do.

This kind of thing requires consideration, thoughtful consideration, on the part of Council and I would like to have some discussion on this to determine what we are going to do; what kind of information we are trying to receive.

Mr. Fagan:

I might say, Councilman Jordon, that this is an exorbitant amount of money. It never was anticipated by anyone in Council and apparently wasn't anticipated by the members of the Stadium Authority nor the architects. Who made the statement that was derogatory to anybody connected with the Stadium Authority or Mr. Cohen?

Mr. Jordon:

There were statements in the papers that implied that perhaps there was

something that was not handled as it should have been handled; that these estimates for bids should not have come in over and above the planning estimates. The only thing I am saying, it is not the first time this has happened. The Public Safety Building, for example; we had to make some changes there in order to reduce the cost. I'm saying we ought not to get into a position of name calling or making the investigation until we have had a chance to sit down and go over the matter and it may well be, by excluding some of the features of the plans, that the cost can be reduced to the cost we had in mind at the outset.

Mr. Counahan:

I don't think we, as members of Council, have been calling any names or have been accusing anybody of anything but our responsibility here is to the taxpayer. It is true, a good many times we have to decrease and deduct when our estimates are not just right but here, we have a meeting of Council. I made a motion to set up a committee to investigate and check into this to see if there is anything we can do or whether we can help. Lets not make statements that there are people accused of doing something wrong. If there are mistakes, let's rectify them.

The Director, Mr. Cohen, does an excellent job. I'm familiar and acquainted with all of the members of the Stadium Authority and I know none of them would do anything wrong. We're not accusing anybody and I don't think the newspapers have accused anybody. I don't think anybody else has accused anybody. We are accepting our responsibility when we meet and try to work out this problem and that is all there is to it.

Mr. Fagan:

In the statements I gave to the Pittsburgh Press, to Brian Artis, I said, definitely, I had absolute confidence in Mr. Cohen. If you read the statement you will find it out. Expressing confidence in Burrell Cohen is expressing confidence in all the other members of the Stadium Authority. I think they have done an outstanding job, but somebody has made a big blunder in the whole

thing and this is what we want to find out, in the interest of the taxpayers of the City of Pittsburgh.

Mr. Kuhn:

Mr. Counahan answered my question. He said it would be a full investigation. I would only like to point out to all of us that this Body has had the taxpayer as a responsibility to protect from the time this project was first approved here and there shouldn't be anything new or unusual about our scrutinizing, carefully, every item undertaken by this Authority for which we are pledging the taxpayer's money. The fact that the bids have come in high imposes the first responsibility on the Authority to answer, and I assume they will. But, speaking for myself, I don't think this is the first that I, and I think the other Councilmen, I hope, have looked at the Stadium carefully. I hope, however, in the perspective of the cost now, that all of us will examine with very, very careful consideration, all of the aspects of a project which, had it come in at the bids that had been anticipated and estimated, would still cost the taxpayers \$1,300,000 in debt service with the possibility of recouping it from rentals.

Mr. Baskin:

As I understand the situation, Council is definitely taking a stand that it won't spend any more money for the Stadium than originally planned for it. Secondly, as I understood Councilman Counahan's Motion, and as I seconded it, he is simply asking for an appointment of a sub-committee to investigate the matter and then report back to Council after the sub-committee has obtained all the information it can on the bids and what can be done in the future. As I understood the Motion, that is all he said. I don't understand the Motion to force a full Councilmanic investigation immediately and, if so, I misunderstood it. You can ask Mr. Counahan what he meant, but I thought he was simply asking for an appointment of a sub-committee to check with the Stadium Authority and inspect the bids and then make a report to Council, which might lead to investigation in a full sense, or might not. That is a matter to be determined.

Mr. Counahan:

I think that covers it.

And the question recurring on the adoption of the Motion, the Motion prevailed.

Mr. Fagan:

I would like to appoint Mr. Counahan as Chairman of the committee, and Mr. Baskin as a member of the committee. If there are any other members of Council who would want to serve on the committee, I would be glad to have them volunteer to serve.

Mr. Jordon:

As Chairman of the Committee on Planning and Redevelopment, I think it is part of my responsibility; I would like to serve on that committee.

Mr. Fagan:

Thank you, Mr. Jordon. And Mr. Jordon will serve as a member of the committee.

Mr. Counahan moved

And the bill was read a second time.

Mr. Counahan:

Mr. President, File No. 471, Bill No. 904, was in Committee on Tuesday of this week. I raised a couple of questions. One was the question as to whether we could promote somebody from within the department and, of course, the answer was "no" as they didn't have anybody there. The next question I asked, whether there was a letter stating, in effect, that all avenues of people concerned, or people within the confines of the City, knew there was such a job open, and they said they had been trying for quite sometime to get somebody to fill this position. They said they had a man in their department and they had asked if he would go to school and they would probably promote him, and he didn't go to school. Now, the letter that they stated we had was one that proved this man's qualifications. All of you have that letter before you. The letter states, in effect, this man was from Fresno, California. My last checkup on that, I think it is a town of possibly 135,000 people. Of course, they have their traffic problems, too, but I just want you to know I got into this thoroughly. He was working there for seven or eight years and he worked for a firm in the City of Pittsburgh for seven or eight years, and all of these times are together; then he worked for one firm in the City of Pittsburgh for one year and all of the time he has been working, he has either been going to school in Fresno or working for the city of Fresno and then working for the firm in the City of Pittsburgh. A statement was made to the effect he was going for a master's degree, correct me if I am wrong. I didn't have the letter before me at that time, but the letter states maybe in a year, he will have his B.S. degree, Bachelor of Science Degree, and again, I am quoting from the letter. Then, in checking up in the department after that, I find we have at least one man there with a college degree at this present time, and he has nine years experience.

The next statement made by the people concerned was that they didn't have anybody that was an engineer, a traffic engineer. I was trying to check up and find out whether there were any colleges that had that particular course. I haven't run across any yet. I don't want to make any more of a big thing out of this. This is the point I want to make. From now on, I don't want anything done like this again. They can bring in their papers here and give us an opportunity to look over the qualifications; give us plenty of time, which I think we are entitled to. In this particular case, I would disagree with the letter itself, but this is done at a time that we were not going to have anything like this before us and when I mentioned the fact I hadn't received or seen a letter, some people were surprised, but I hadn't. I hadn't seen a letter. Insofar as I am concerned, from now on, when they are asking for things like this, you can be assured I will do what I am doing right now—protest the fact that I am not getting the information that I should have as an elected member of this Council. I'm going to vote against this, as I did before. I am not talking here to influence anybody's vote but if there are people in Council who knew more about this than I did, I do not know who they are. I am telling you that I did not see a letter. I did not know anything about it and had I seen it, I still would vote "no" and I think it would be a good idea for everybody concerned to look at that letter and find out how many loopholes there are in it. Number one, the fact that a man worked for a firm in the City of Pittsburgh for a year; then they go into another paragraph and infer that during that same period, he was employed in Fresno. That is all I have to say on the subject, and if I'm wrong, I stand corrected. From now on, let us not crowd Council. Let us give Council an opportunity to read these letters and discuss them and check into them, and I thank you.

Mr. Baskin:

Mr. President, if Mr. Counahan wants to vote against the waiver of residence, that is his privilege. I have no objections to the reason he wants to use for it, but I want it clear on the record, I don't share the same views he has on

the information we have. I am satisfied we were given enough information to make an intelligent decision. As far as I'm concerned, I'm satisfied the department director of the bureau and the Mayor and the Mayor's office thoroughly explored this problem. The only reason they are asking for a waiver, they found it impossible to get a qualified man. This man is going to live in the City after his appointment and I am satisfied, as a Councilman, that I have all the information necessary to make the vote in favor of it. If Mr. Counahan chooses not to vote because he doesn't like the waiver of residence or because he prefers that a man in the department get the job, that is up to him, but I want to go on record that in my opinion, Council has all the information they need.

Mr. Kuhn:

Mr. President, this is an administrative concern, basically, and not a legislative one. I don't have any legislative candidate for the position. The Director of Public Safety and the superintendent involved made this recommendation and if they wish to make their own errors, I believe they have the right and the responsibility to do so. I think they should have the full administrative competence to administer their own department. The bureau head has asked me to let him speak in response to Mr. Counahan's comments in respect to some questions which he believes would require an answer by him so, on behalf of Director Craig, I ask that he be allowed to answer.

Mr. Fagan:

If we get unanimous consent, it will be alright but otherwise, the answer is, no.

Mr. Counahan:

Mr. President, on a point of order, the statements made by the previous speaker, when he stated in effect this is a matter for administration and is not legislative, if it was for them to decide, it wouldn't be here and that is the reason it is here. I think, insofar as I'm concerned, I have a meeting scheduled at 11:30 and here it is 10 minutes to 12. I don't want to

prolong this. I have no objection to Director Craig speaking. I don't know when he contacted Mr. Kuhn to find out whether he could speak in answer to me. I didn't know that I had advertised the fact I was going to talk.

Mr. Kuhn:

He spoke to me a few minutes ago, just when you finished your remarks.

Mr. Counahan:

Mr. President, you know I don't have to vote for him to speak and it takes all votes so that if I don't vote for it, he doesn't speak.

Mr. Fagan:

If this is an administrative matter, why is it before Council?

Mr. Kuhn:

Because of a 1902 ordinance passed at a time when there was no traffic, no planning department, and when the municipal employees had to have two years prior residency. This ordinance that requires residence is absurd. In order to get qualified people and exercise our prerogative to stop the administration of the administrative branches of the government, the first order of business when we reconvene in the autumn, I'm going to ask for a repeal of that ordinance of 1902 as absurd. It is because of that 64-year old ordinance that we must restrict our choice of employees within the confines of that ordinance.

Within public works—police, fire, water, and those jobs—might very well be a reason for it, but now, with traffic planning, human relations and other critical positions in which there are national concerns, we here have to pass on whether they get these jobs and the administration has to come in here and ask for it.

Mr. Counahan:

I just want to make this remark. It is an ordinance that they come before Council for permission, is that correct? I'm not interested in Mr. Craig's opinion of the ordinance at this particular

time. I will be, whenever he brings something in here to repeal it. That isn't the question here. This is the law. I have no objection, Mr. President, to letting Director Craig speak for a few minutes but I want him to understand that, as far as we are concerned, we are tied up at the time and we know he is capable of condensing his statement.

Mr. Fagan:

Any further questions? Before the Director of Public Safety speaks—back in 1902, the City was running without laws or anything—just a jumbled up law for the citizens. Somebody must have had a little wisdom in that time and felt if the City was good enough to work for, it was good enough to live in and I got elected by the citizens of the City of Pittsburgh.

Mr. Kuhu:

Mr. President, we are talking about prior residence. I don't care to debate. If the Chair wishes to yield the chair in order to make this the point of business, I yield to that.

Director Craig:

I do want to make it clear, we are not talking about employing a non-resident as an employee. We are talking about merely waiving the prior residence requirement.

In accordance with Mr. Counahan's well-taken point, I will be concise. I have something unusual for me and that is a page of written remarks, so that my remarks are concise.

"Xenophobia" is a word which I just learned. It means "fear of foreigners." The City of Pittsburgh is too progressive to have a fear of foreigners, particularly when the candidate is already an Occupation Tax payer of our city and will reside right in it when hired to fill an essential, highly-technical position. City Council properly holds us department and bureau heads responsible for producing results. We welcome that responsibility. But, you cannot hold us responsible for results if you say "Promote this person or that person and do not look elsewhere." In baseball, if you pick the

pitcher or veto the trades, then cannot blame the managers if you are lost. Of course, you are entitled to know what search we have made in our opinion as to qualifications. Of course, we searched our own bureau because it is to our own advantage to promote our present people when we can. And the search of our university and local engineering firms was described to you. In the American pattern of the government, the Civil Service Commission—not City Council—determines requirements, another check-and-balance. For this Traffic Engineer II position, the job description wisely specifies experience in addition to or in lieu of engineering degree—experience in traffic studies, as well as in design, electrical technology and mathematics. I have no candidate in the bureau who meets those requirements or has an engineering degree. That is a fact. We have a person who has been a Transportation Planner in one of the top highway engineering firms in Pittsburgh who has just been working on the patterns for the Allegheny County Rapid Transit Study—an area study—who has done design, signal, and mathematical work, and who has authored numerous reports, including one commended by the U. S. Department of Commerce as "very useful document in advancing national effort to program engineering improvement."

Now, you do have a letter which summarizes the matter. For your convenience, we have a copy of the job description and although it hasn't a biographical resume of the particular person, I repeat, he will reside in the City of Pittsburgh. I do ask you to go along with Mr. Counahan's point that no names be mentioned here. I think it would be a shame if we more young men were, in any way, suffer any problems because of our discussion here of a point which is so important. No one, to my knowledge, said this particular candidate had a college degree or will have a college degree. As indicated by the resume, as indicated by the original letter, he was in Council's hand on Monday. This particular candidate, who has been living in the City, went to school in his former state for nine long years and within a year's night school of a Bachelor's Degree. Because there is no

this matter, and I grant there is haste, because when we find a person like this, then we must grab him before we lose him; because there was haste in this respect, the letter was hastily typed and does contain a typographical error. However, I am sure no one would want to penalize anyone because of that. Of course this man, as I say, had nine years of night school in California and worked in Fresno. He came to the Pittsburgh area in 1965. If we have misled you by that typographical error, we are happy to correct it. Now, we do have to consider whole areas as to population density in those areas and we must use mathematics in a sophisticated way to predict what the traffic volume will be; to design such things as widths of roads and types of cloverleaves. Believe me gentlemen, it is a burden on you and it is a burden on any department head with three thousand, 24-hour a day employees, to take up your time with these personal details, but these are important because the employees must do the job. We can only direct and supervise and our goal is to better and better and better the operation of our departments so that you can get prompt and full knowledge which you so very much need.

Mr. Counahan:

We understand what you are trying to do and, of course, you understand our position. There is no need for going into it any further.

Mr. Fagan:

What is the contrast between baseball and municipal government?

Director Craig:

Very close. How a baseball team performs depends on how good are the players. The facts are the employee, in being promoted to his present position, offered to go to school, and has not, and this is a factor. We like to train people, but we don't have the time to conduct training of an engineering sort exclusively. This takes mutual initiative. It is obvious we would not take your time or ours unless we felt in key jobs such as this, we must have qualified persons.

We are about to be overwhelmed, flooded by automobiles and mounting traffic and I am anxious to back up a bureau head who works at his desk 10, 12, 16 hours a day and, when he is not there, you can find him out in the field.

Mr. Kuhn:

May I ask Director Craig a question? Director, how many city police departments in the Nation now recruit their police officers in Pittsburgh and outside of their own municipalities?

Mr. Counahan:

Mr. President, point of order. What are we drifting into now? Let us get on with it.

Mr. Fagan:

The question is out of order.

Mr. Leslie:

Under the existing legislation, no one is denying us the right to ask questions and inquire about this gentleman's qualification. No one contacted me from the administration and I had no written evidence of this man—whether he was a Bachelor of Science or whether he had an engineering degree or whether he had a degree at all until this morning when I received this report on my desk. Let me say, I asked Tony Miscimarra a question—

Mr. Fagan:

George, do you have a letter from them?

Mr. Boxhelmer:

The only letter I have is the one of which you all have a copy.

Mr. Leslie:

This pertains to the matter. Mr. Miscimarra, in talking about time being of the essence, had you had an opportunity to get somebody you thought qualified

to help your department? Had you qualified this man as early as eight months ago to work for the City of Pittsburgh?

Mr. Mischmarra:

Which man?

Mr. Leslie:

The man in question here.

Mr. Mischmarra:

I met him for the first time about two weeks ago.

Mr. Leslie:

You have never done any work with him in the past in the rapid transit survey?

Mr. Mischmarra:

They knew of him.

Mr. Leslie:

Do you know of any consulting work he has done? I'm trying to find out for my own information. We keep talking about legislative bodies. I think somebody better get together and start having some communication between us. You expect me to come up here to vote on something about which I knew nothing until a few minutes before Council convened.

Mr. Jordon:

Mr. President, I think one of the problems we are having here is the concern for our own employees. We are constantly being asked by our own employees why we let others come from outside the City into the City to work in positions they believe they are qualified to perform. I think this is a serious case and the directors must, at all times, take this into consideration because they, too, have been affected by this in the past. We want to do everything we can to maintain the morale of our own employees by giving them the opportunity of upgrading. I hope, in this instance, the director of this department has thoroughly examined the qualifica-

tions of his employees and determined that no one is qualified for this position. I have here, as everyone else, a biographical sketch. In looking at this, I can determine this man as qualified to perform the job. I don't know, however, and I'm not in a position to determine, whether he is more qualified than anyone else in the department or than anyone else whose name has been mentioned in the department. I am not in a position to make that judgment and wouldn't make that judgment. For that reason, I intend to vote for it with the understanding that in the future, in discussions like this, we ought to be given both sides of the picture.

Certainly, I would hope the directors would keep this in mind. Council is very much concerned about the morale of the employees and wants to receive every consideration. Now, this is an administrative matter. I don't know either man and am not in a position to make that judgment but I want to go on record as saying I, too, am concerned and I want to make sure all employees are in a position to be upgraded. I will vote for this; I'm placing my confidence in the director.

Mr. Kuhn

I want to be sure Mr. Jordon understands this is not a residency waiver but a prior residency waiver. We are talking about two years prior residency waiver. I would not be expressing myself as I have if it were waiving of residency. If a man works for the City of Pittsburgh, he should live in the City. But, it is an antiquated notion that the only person qualified to perform a job, in a field where there is competition nationally, the director of a department must bring it up before us, the qualifications of people for jobs which should be determined by department heads and not by us.

Mr. Jordon:

I was trying to be fair in this matter. I don't want to be technical. It is a residency waiver whether it is prior or present. I don't believe these laws are antiquated. New York City just recently is advertising in Pittsburgh for policemen. The mayor appointed some people

in New York City and there was a real conference. They appointed them without waiver. We are not the only city who has this law. There is a good reason for it. If he presents an ordinance to repeal, at that time we will discuss the merits of it.

Mr. Fagan:

Where does this man live now?

Director Craig:

He hails, presently, from Monroeville.

Mr. Fagan:

He comes from Fresno, California. The average guy from Fresno has a B.S. Degree.

MOTIONS AND RESOLUTIONS

Mr. Counahan moved

That when Council adjourns today, it adjourns to meet on Monday, August 1, 1966, at 12:50 o'clock, P.M. (E.S.T.), and that the standing committees of Council, commencing with the Committee on Finance, meet on Tuesday, August 2, 1966, at 1:00 o'clock, P.M. (E.S.T.).

Which motion prevailed.

The Chair:

Members of Council, during the past week the City of Pittsburgh lost one of its outstanding citizens in the person of Hugh J. Mullin. He was a friend to all of us. He was employed by the City of Pittsburgh for many years as a member of the Bureau of Fire. He was after his retirement as a Fire Captain engaged in the labor movement, and served on the Committee on Political Education (COPE) which is sponsored by the AFL-CIO. It is only fitting and proper that when Council adjourns this morning, it adjourns its meeting out of respect to the memory of Mr. Mullin, who was known to most of us as "Moon" Mullin.

Mr. Counahan moved

That Council now adjourn and it does so out of respect to the memory of the late Hugh J. Mullin, who served his City so well and faithfully.

Which motion prevailed by a rising vote and a moment of silent prayer.

And Council thereupon adjourned.

REPORTS OF SPECIAL COMMITTEES

Mr. Counahan presented

No. 996.

Pittsburgh, Pa.
August 1, 1966.

To The President and
Members of Council

Gentlemen:

Your Special Committee of Council, appointed to look into the question

of the increased cost of constructing the North Side Stadium, wish to submit the following preliminary report:

On Monday, July 11, 1966, your Special Committee met with the members of the Stadium Authority and its Executive Director, at which all the members of Council were in attendance.

Based upon the preliminary report submitted by the Authority, a majority of the members of Council is satisfied that the basic concept for the Stadium is still sound, and that the Stadium Authority has done an excellent job in putting together the many pieces that are required for the plan.

A second meeting of the Special Committee was held in the Mayor's Conference Room on Friday, July 15, 1966, at which, in addition to the members of the committee being present, there were also present Messrs. Flaherty, Kamyk, Kuhn and Fagan (President). Also present was David Stahl, Deputy Mayor, and the Mayor's Executive Secretary, Aldo Colautti. Also present were members of the Authority—Messrs. Graiz, Casey, Mauro, Clair and Leslie; as well as the Executive Director of the Stadium Authority, Burrell Cohen, and its Architects, Engineers and Consultants.

This latter meeting was opened by a statement by the Chairman of your committee. He stated that the purpose of the appointment of the Special Committee was to determine the reason for the increased cost of the construction of the Stadium over and above the estimates prepared by the Architects. It is the responsibility of the Mayor and the Council to provide the money for the construction of the Stadium, and for that reason it was deemed necessary for Council to appoint the Special Committee to ascertain (1) the reason for the excess costs; (2) can a modern stadium be erected for the amount available—\$26,000,000—(3) will the modified stadium leases be firm; (4) the cost of modifying the plans and who will bear the additional cost; (5) the extended time for the completion and dedication of the Stadium; and (6) will the seating capacity of the stadium be reduced.

Burrell Cohen, Executive Director of the Stadium Authority, answered practically all these questions in a report he

submitted under date of July 15, 1966, a copy of which is attached and made a part of this report.

Further, your Special Committee was informed that the Stadium as designed could not be built for the amount provided for. The reason for the additional or increase in the cost is due to the excessive amount of concrete required in the construction of the stadium as designed. In addition, the cost of steel rose from 27 cents to 40 cents a pound erected. It was also determined that the pedestrian ramp would be extremely costly; also the movable seats.

As stated in the press release of July 11, 1966, the Stadium Authority and its architects are studying methods to modify the plans for the Stadium so that it can be constructed within the cost estimates previously set by Council.

We wish to report that the members of the Stadium Authority have met with the principal lessees and have been assured that they will cooperate with the Authority in any change in the leases.

We also wish to report that the architects and engineers have been given five weeks in which to make a recommendation to the Authority of a basic concept of design so that it can be built for the amount previously set up. The architects and engineers have agreed to make this recommendation at no expense to the City or the Authority.

It is our hope that the work on the stadium can be commenced in the Spring of 1967 and the stadium be made available for use for the opening of the baseball season in 1969.

We further wish to report that the seating capacity of the stadium will not be decreased.

Your Committee also wishes to have made a part of this report the statement issued by Burrell Cohen, Executive Director of the Stadium Authority, as of July 11, 1966.

The meeting adjourned to meet within five weeks or earlier at the call of the Chairman.

Respectfully submitted,

JOHN F. COUNAHAN
PHILIP BASKIN
JAMES A. JORDON

New Release by John F. Counahan.

A comprehensive report was received from the Executive Director and the members of the Stadium Authority with reference to the present status of the Stadium Project.

This report was reviewed and discussed with the Architects, Engineers and Consultants of the Stadium Authority.

The Architects, Engineers and Consultants have been directed by the Stadium Authority to submit recommendations that will make possible a modern stadium within the revenue framework available. This work to be done within the next five weeks.

Neither the Authority nor the Council have made any commitments on the future course of action, and will now wait for a report from the Stadium Authority.

STADIUM AUTHORITY OF THE CITY OF PITTSBURGH

1002 Frick Building,

Pittsburgh, Pa. 15219

July 15, 1966.

Councilman John F. Counahan,
Chairman Sub-Committee for
Stadium Project
City-County Building
Pittsburgh, Pennsylvania 15219

Dear Mr. Counahan:

Subject: Review of Status of
Stadium Project

For purposes of enabling your Committee to more fully comprehend the status of the stadium program as a result of events of the past week, I offer the following summary which is based on a thorough review of the program and which serves as a basis for the Authority's action to date.

1. It has been determined that in our sincere effort to provide Pittsburgh with the best multi-purpose sports stadium possible within our proposed budget of \$26 million, we developed a stadium design concept which cannot be built for the funds available.

2. The design proposed required the use of extensive amounts of concrete

and steel of ununiform shapes which, in addition to greatly increasing the fabricating and forming costs, proved most complicated to erect.

3. The provision of a 56-foot wide pedestrian concourse encircling the stadium and which has been referred to as the podium, required a separate structural system for its support and was a contributing factor to the high cost of the stadium.

4. The proposed configuration for football required the moving of 8,000 centerfield seats 110 feet toward home plate and resulted in a very complicated design and costly structural system for these stands.

5. The ramp system designed to provide pedestrian circulation to each of the stadium's seating areas was too artistically designed, resulting in very difficult erection problems and inflating the cost far above estimates.

6. It has been concluded that in an effort to meet our commitments to both the Pirates and the Steelers that the stadium would open in the spring of 1968, our 20 month construction schedule was too short, given the complicated structure that we proposed to build.

7. A contributing factor to the high bids was the fact that only three general contractors finally submitted bids to the Authority, as opposed to nine that originally expressed a sincere interest in doing so and six that actually purchased plans for bidding purposes.

8. Due to the complicated urban renewal program that must precede the construction of the stadium, contractors bidding the stadium were not completely satisfied with the condition of the site for the start of construction. Much of the site would have been cleared, but movement by the contractor, including the storage of equipment and supplies, would have been restricted as a result of demolition activity that would have been going on concurrently with the construction of the stadium.

9. While no attempt is being made to blame the current economic boom that the construction industry nationally is enjoying, it is apparent from public works projects being bid elsewhere that such public projects have been and are

coming in greatly in excess of all prior estimates. The last issue of Engineering News-Record and Business Week Magazines devoted articles to this very subject. This is true also of suppliers and producers, such as steel companies, that happen to be operating at maximum productivity.

Despite the fact that the stadium we proposed to build cannot be built for the funds available, the Stadium Authority has concluded without doubt that it can produce an outstanding multi-purpose sports stadium for the City of Pittsburgh with the funds available to it. It should be noted that the most important aspect of the Pittsburgh stadium program has been the Stadium Authority's ability to conclude satisfactory leases with the principal users so as to ensure sufficient income to amortize the cost of constructing the stadium. This has been accomplished.

The Stadium Authority has taken the following steps to resolve the current problem:

1. It has completed a thorough analysis of the reasons why bids exceeded estimates and is satisfied that the stadium must be modified to reduce excess structural costs.

2. It has instructed its architectural-engineering consultants to take five weeks at their expense to prepare modifications and recommended changes to reduce cost, while at the same time retaining those essential spectator comforts designed to produce an outstanding stadium facility.

3. It has met with its principal lessees and has received from them assurance that all will work closely with the Authority in an attempt to resolve necessary changes as quickly as possible and to the mutual satisfaction of all.

4. It has had its staff continue to move forward in concert with the Urban Redevelopment Authority and the State Highway Department in completing roads and highways required to serve the stadium once it has been completed.

5. It has met with local bank representatives for purposes of discussing the Authority's interim bank loan, and in particular, the availability of funds

from that loan to be used, if necessary, for the preparation of modified stadium plans.

6. It has made arrangements to meet privately with several large construction companies for purposes of having them thoroughly review the proposed changes and modifications to the stadium structure so as to assure itself that such modifications can result in a substantial cost savings when the stadium is put out to bid the next time.

7. It has concluded that the program must be expedited to the maximum extent possible so that the stadium can be under construction by March of 1967. If this is done, a minimal amount of time will have been lost and the stadium can be completed by baseball season of 1969 and still provide two years for its construction.

It is hoped that this report more clearly and accurately conveys to you and the members of your Committee the status of the stadium program at this time. We feel that until the unfortunate bidding experience we have all been through, this program has been very well administered and has met each crisis in a satisfactory manner. We are still convinced, as stated, that we are capable of producing an outstanding facility and intend to do so with your cooperation and encouragement.

Sincerely yours,

STADIUM AUTHORITY OF
CITY OF PITTSBURGH
BURRELL COHEN
Executive Director

STATEMENT for the Stadium Authority
of the City of Pittsburgh

By Burrell Cohen, Executive Director

For Release 10:30 A. M., July 11, 1966

We are as determined as ever to build a stadium for Pittsburgh, and we hope that it will be one of the finest in the nation. However, we're not going to build a stadium at the prices which we received last week. This was never our intention and is not our intention now. Therefore, we are rejecting all bids immediately and are so notifying the architects-engineers and the bidders.

We have spent the past several days attempting to determine, to the best of

our ability and within a short time limit, the reasons for the disparity between the bids we received last Wednesday and our previous estimates. Our meetings with our architectural-engineering consultants and discussions with bidders have confirmed the fact that the biggest discrepancies exist in the materials and construction costs involved in the complex structural system utilized in this design.

The present design calls for vast amounts of concrete and steel, and it is obvious from a cursory examination that the architectural estimates were low on these items. This has been verified by the bidders and confirmed by the architects-engineers. Furthermore, because of the present construction boom, we were limited in the number of bidders available for the general contract, although nine firms originally indicated an interest. We had hoped for a more competitive situation. Perhaps some of the firms were concerned about the shortage of materials, the shortage of skilled labor, and the fact that we had indicated that the structure must be completed in 20 months to be ready for the 1968 baseball season. We cannot be certain how much these factors influenced the bids and the number of bidders.

Suffice it to say at this time that (1) we are unable to construct the stadium as proposed and to build it within the funds available to us from the leases we have executed with the major private tenants; and (2) at these prices, we would not have been able to fulfill our continuing commitment to the Mayor, City Council and to the general public that Pittsburgh's stadium can be constructed at not cost to the City taxpayers. We intend to proceed immediately to determine what modifications, changes and redesign considerations must be made so that we can live within the budget.

The architects, after meeting with the Board of the Authority, agreed to make a full determination of the changes needed in the design to build this structure within our budget. This will be done at their expense and with no further obligation to the Authority. These additional studies will be completed in approximately five weeks. At that time the Authority will evaluate

their recommendations and will firmly determine our future course of action. We can assure the citizens of Pittsburgh's metropolitan area that the stadium will continue to provide spectator comfort and conveniences that we believe are essential in this day and age in any sports facility.

While disappointed, we are not discouraged. We still have executed leases with Pittstad, Alco, the Pirates and the Steelers, each of whom has reaffirmed their willingness to work with us in attempting to revise our program. We would expect that the University of Pittsburgh, within reasonable limits, will be able to extend their present leases to the Pirates and the Steelers so that both are provided stadium facilities until such time as the new stadium is completed. In the meantime, we will keep the Mayor and City Council fully informed on our progress, and we will be happy to work with them in the weeks ahead.

Pittsburgh needs a stadium today as much as Pittsburgh needed a stadium prior to the opening bids. We are confident that a stadium will be built within the framework of a reasonable financial plan.

Mr. Jordon (for Mr. Kamyk) presented:

No. 999. Resolution, authorizing the City Solicitor to institute proceedings in the Orphans' Court of Allegheny County to effect the sale of certain real estate located in the 27th Ward, City of Pittsburgh, County of Allegheny, Pennsylvania, a gift of the Frederick C. Renziehausen Estate; authorizing the Mayor and the Director of the Department of Lands and Buildings to execute a deed therefor; and providing for the application of the proceeds of said sale, if approved, for certain purposes.

Whereas, Frederick C. Renziehausen died on May 30, 1930, and by Will provided for a gift of land to the City of Pittsburgh; and

Whereas, Pursuant to said Will, property situate in the 27th Ward was given to the City of Pittsburgh under the following limitation:

"This deed or conveyance of gift is made and accepted upon the express condition that the City of Pittsburgh shall maintain the same at the expense of said City for the sole purpose of supplying a play-ground for children or a recreation center, and to be known as 'The Sophia Evert Play-Grounds, Number Three,' and when and if the above described real property is no longer used as a play-ground or recreation center, the same shall revert to and become a part of the residuary estate of Frederick C. Renziehausen, deceased."

and,

Whereas, Recent developments in the vicinity of this property, including the extension of Ohio River Boulevard in the City of Pittsburgh, the existence of other play-ground facilities in the vicinity of

the property hereinafter described, the increasing industrialization of the general vicinity and the resultant decreasing need for play-ground facilities in this area, have made it undesirable and impracticable that this property be used either as a play-ground for children or as a recreation center; and

Whereas, It is the desire of Council that this property be sold and that the funds realized from the sale be applied in accordance with the terms of the Last Will and Testament of Frederick C. Renziehausen, Now, Therefore,

The Chair:

Members of Council, I might say for the information of Council that I have a few remarks to make under per-sonal privilege, and if there are no ob-jections, I would ask that Mr. Counahan take the Chair while I make my state-ment.

And Mr. Counahan took the Chair.

And Mr. Fagan taking the floor, said: Members of Council and fellow citizens:

On July 15, 1966, a statement was made by the Director of Public Safety, Mr. David W. Craig. He came to Council and was granted permission to address Council, which is a very rare thing in a legislative matter.

In his opening statement, he said he had found a new word—"xenophobia." He said it was a word which he had just learned which meant "fear of for-eigners." I looked the word up and I found that "xenophobia" doesn't mean "fear of foreigners"; it means "hatred of foreigners." As far as I am con-cerned, I have been in public life for quite a while, both in the labor move-ment, State government, Federal gov-ernment, and now with the City govern-ment. Never in my life have I ever hated anybody. The first words I learned in my catechism class were "Who made the world?" and it says "God." It said "Who made you?" and it says "God." What did he make me for—to

know Him, to love Him and to serve Him in this world and be happy in the next. The second is to love your neighbor as yourself and the man who says he loves God and hates his neighbor is a liar.

Mr. Craig comes before us and he says "xenophobia" is a fear of foreigners. Well, as your humble servant, since I was 12 years old, I was in the labor movement. I joined the United Mine Workers in 1910. Right after the preamble in the By-Laws of this union are the words "We shall not discriminate against creed, color or nationality." Later, those words have been changed to "national origin." I worked with men of every nationality who came to this country. I organized them, and I was president of the United Mine Workers from 1922 to 1943. In 1936, I helped organize the steel workers, organizing a committee, which later became the United Steel Workers of America. In the constitution of the United Steel Workers of America, it says "We shall not discriminate against creed, color or nationality." Now, the City of Pittsburgh was probably 190 years or more old when I came to the City of Pittsburgh. I came to Council and was sworn in on January 3, 1950.

In 1951, I started a campaign for the purpose of putting the Fair Employment Practice Act into effect. If I had had any hatred for foreigners, I assure you, I would not have spent all the time I did with the Pittsburgh Central Labor Union, Pennsylvania Federation of Labor and the Pennsylvania Steel City Industrial Union Council. Getting all of these people on the side, I got the church leaders to lead members of all denominations in the City of Pittsburgh in the fight—and here is the result—this book—an ordinance against discrimination. I was for it, I sponsored it, I sponsored the idea, it passed, I had a lot of discussion about it; all this information is in this book. Then followed the Committee on Human Relations, which is now in operation to help everybody, no matter what their creed or color or national origin may be; they have a right to be protected under this law, an ordinance against discrimination. What I would like from this Council this afternoon is to have deleted every word of Mr. Craig printed in this record be-

cause, after all, they are falsehoods; there is no truth in them. I am sorry Councilman Kuhn isn't here this afternoon.

He said he is going to have the law repealed sometime this Fall. For the record, this law was passed in 1901 in the Pennsylvania Legislature. It went into effect in the year 1902. It is not a statute or ordinance, nor is it a resolution of the Pittsburgh City Council; it is a matter of State law. According to the rules and regulations of City Council, anybody who wants a job in the City of Pittsburgh is supposed to be a resident of the City of Pittsburgh. Now, let me say this—under extenuating circumstances, if it is impossible to get a technician or engineer and after every avenue or recourse has been explored, then, in the wisdom of Council, they can waive residency. Well, Mr. David Craig says in his statement here, the City of Pittsburgh is too progressive to have a fear of foreigners. That isn't fear. The law says, "have residency." His statement goes on to say that the candidate already has paid an occupation tax. We have people who pay \$5,000 a year in taxes. Some just pay \$150 in real estate taxes. Others pay \$50 or \$70 or \$200 in Earned Income Tax.

Because this man comes from California—and I understand he is still in college and not graduated—apparently Mr. Craig and Mr. Miscimarra think that because he comes from California, he is a traffic expert. Well, if there is any place in the United States that has more trouble in traffic, it is in the State of California and especially on those speedways in Los Angeles. Now Mr. Craig goes on and states—this should be the laugh and joke of the year—he said in baseball, if you pick a pitcher, then you can't blame the manager if games are lost. I asked him what connection was there between municipal government and a baseball game. I have looked hither and yon and went to great lengths to find out what the analogy was between baseball and municipal government. I haven't been able to find a man who could correlate them. I also wanted to know whether municipal government and baseball are synonymous. I didn't find anything in the dictionary that made them so. I got from the dictionary the interpretation and meaning of baseball. It says baseball is a game played with

a strong, rawhide-covered ball by two opposing teams probably made up of nine players each. It is played on a field of four bases forming a diamond, with each team trying to score a run. So, there is no analogy, nothing synonymous, about baseball and municipal government.

I would be very happy if Director Craig were here this afternoon, and Councilman Craig Kuhn, who is going to have the law repealed so that one could live anywhere one wanted to, and get employment in the City of Pittsburgh. So, members of Council, what I would like is for someone to make a motion that the remarks made by Director Craig on July 15, 1966, be deleted because it has no place in the records of Council of the City of Pittsburgh.

Anybody who wants to see the record as to what I have done for the FEPC law, all he has to do is get this Volume 86 of 1952 and the minutes will give you the complete record. For the information of those who would wish to look it up on page 449 is the ordinance and on page 448 are the remarks which I made and I was the only one in Council who made any remarks when the law was passed. So, my friends, I request this in the name of everything honorable and everything decent and everything fair.

If I had hated foreigners, do you think I would have gotten this letter from the Order of the Italian Sons and Daughters of America, signed by the National President, Judge Aldisert? Also, tomorrow afternoon, if we get through in time, I am going to be with the Central Council of the Polish Organization. The president has asked me to be at Kenneywood Park and eat Kolbassi and "pigs in-a-blanket." I want Director Craig to know just exactly what my position is. I know we are going to have three hearings here and I won't take up more of your time. I am satisfied to close with this matter.

Mr. Leslie:

Mr. Chairman, I move the remarks made by Director Craig and referred to by President Fagan be stricken from the record.

Mr. Counahan:

There has been no second to the motion. Does anybody wish to be heard?

Mr. Baskin:

Mr. President, the reason I am not seconding the motion is because I don't think the Director intended the meaning as Mr. Fagan took it. I don't think there is any member of Council who doesn't respect and admire our President for the record he has had in public life and in the labor movement prior to the time he came to public life. I don't think there is anyone of us who doesn't recognize that there is no one who has more good will toward all people than he has and I think that view is also shared by Director Craig. I know quite well, I think he would be the last person who would care to cast any reflections on Mr. Fagan, as the way Mr. Fagan understood his remarks. The reason I am not seconding the motion—it would be approving the interpretation which Mr. Fagan put on the statement, which I would object to. Furthermore, I don't think it is good practice to eliminate from a public record things you don't like. I am sure there are things said about each one of us at hearings that each of us at one time or another would have liked to have stricken from the record but I think it is a bad habit. For these two reasons, I am not going to be in favor of the motion and I want the record clearly to show the principle reasons I am against it.

I don't think the Director intended the kind of meaning Mr. Fagan took from the letter and I am sure if he were here, he would be the first to say so. While he used an unfortunate word or phrase, I feel confident that Mr. Craig has the same feeling and respect for Mr. Fagan as the rest of Council does. I want the record to clearly show my belief in that.

Mr. Leslie:

Mr. Chairman, I voted against the proposed legislation as I felt this affected me as well as the rest of Council and Mr. Fagan. This is the reason I made the motion. Possibly, Director Craig didn't mean it that way. I don't know his feeling and since there was a

misunderstanding. I thought it better that it not show in the record, and that was my position. The second was, I was one of the ones who voted against the proposed legislation. I don't know if he meant it that way or not. Nevertheless, it is a part of the record and I thought it better that it be stricken from the record.

Mr. Counahan:

It would have to be unanimous to strike anything from the record. Two of the members of Council are not here. May I say this for myself—I would vote against it. It would have to be unanimous anyway and I would vote against it. I am not going to get into it. Being in the Chair, I'm telling you, I would have to vote it out of order because there weren't enough members of Council here.

Mr. Jordan:

I would like to go on record, the reason I did not second the motion—I think these are minutes of what transpired in our legislative meeting. These are not the minutes of what we would like to see included or transpired. I feel the minutes ought to stand as they are because they do reflect what was said and what happened in the meeting. There have been times past, and as Mr. Baskin pointed out, things directed toward me that I would not like to see in the record and I would like to have corrected but they're in there. I had an opportunity to oppose them and stated my position, as we have in this instance, and I think that is the purpose of minutes.

Mr. Counahan:

Thank you. Anybody else?

Mr. Fagan:

I want to thank you Councilman Leslie for making the motion and, of course, it is apparently a vote of "no confidence" in the President of the Pittsburgh Council. Of course, it had been said a long time ago, I would rather be right than president of council or a member of council. I want to pass around for the

members of Council this new word discovered by Mr. Craig which was used by James Norris who has been connected with the National Catholic Welfare Council for 20 years; part of the clothing drive for the people in Europe; part of the Bishop's campaign to raise money for them; and he has had his picture taken with the Pope because he was the only layman in the whole world who addressed the Vatican Council II. He spoke on poverty and after he was through, archbishops, bishops, cardinals, all wanted to talk to him because of his knowledge. I thought you might find it interesting. He uses the word, it's on Page 14, and it means just exactly what Webster's Dictionary says it does—"hated for foreigners." I say to you this afternoon, I never hated anybody. I dislike people—crooks, racketeers, thieves, liars and hypocrites. I despise them and will as long as I have breath in my body.

Mr. Counahan:

Mr. President, do not take this as a vote of non-confidence. We cannot take a vote today because there are members absent who had something to do with these particular minutes. Now, if you don't mind, Mr. President, I think you covered the subject very well and I will return to my seat.

After Mr. Counahan returned to his seat, and Mr. Fagan resumed the Chair, Mr. Counahan said:

Mr. President, I don't want to belabor this. I think most of these remarks were directed to me. I had a talk with Director Craig about them. He said he did not mean it that way. I take it, he did. He read a prepared statement and, insofar as I am concerned, I can get up here and make a mistake, just saying a word out of the way or a sentence, possibly, having the wrong connotation, but when I write something out, that is what I mean because I just happen to be the type who would go over my writing and check and double-check it. I disagree with anybody who tries to minimize the statement made by the Director because he read that statement.

Mr. Counahan moved

Mr. Kamyk said:

Mr. President, Members of Council:

Recently, we lost a very distinguished and great man, in my opinion. He was, I would say, a human trinity. First of all, by profession, he was a doctor. Secondly, he was a humanitarian. During the depression, his office would be filled with numerous people and oftentimes, someone just looking in would think that it was all profit coming in, but it wasn't. Dr. Sarraf, in those days, took care of many people who could not afford to pay for that care because they weren't working and had no money. Thirdly, his greatest love was a love for politics and, as a politician, he served in the State Legislature since 1935. In 1957, he served as a State Senator and it was during that great era, if you recall, that you could also say there was a renaissance in the State Legislature because the People of Pennsylvania, as a whole, were getting more and more consideration in the Legislature. It was in those days when the different bills for the working people were passed, such as Workmens Compensation, and for people who had nothing, no income from anywhere, he even helped pass the so-called "relief" or Department of Public Assistance. In 1947, we all recall, the renaissance of Pittsburgh was begun through a lot of legislation in Harrisburg and I know Dr. Sarraf was the chief supporter of our present Mayor Barr in seeing this legislation, necessary for Pittsburgh was passed. He helped a great deal in the passage of the mass transit bill; many bills, many good bills I can't even recall. One thing Dr. Sarraf had that some of us maybe do not—he had a way, a personality, that he could even get support, very often, from the party of the opposition, which helped very often. I feel sad in losing Dr. Sarraf because when I got into the Legislature, he was probably my best teacher. He was the chairman of the delegation until 1957 and I was the secretary. We worked very well together and it so happened that after he went into the Senate, I followed in his footsteps. I am sure that what I learned from him, and the experiences I got from him, helped me to be the legislator I was. Today, out of respect for Dr. Sarraf, who was more than just a Senator or Legislator, he was also the man who helped to make Pittsburgh

what it is becoming today, I offer the following Resolution:

Mr. Kamyk presented

No. 1099.

The City of Pittsburgh and Allegheny County, in the death of Dr. George J. Sarraf, at the age of 66, lost one of its most honored and respected citizens and a progressive and liberal member of the Legislature of the Commonwealth of Pennsylvania.

Dr. Sarraf was born and raised in that section of the City of Pittsburgh known as the Hill District. In 1925, he graduated from the University of Pittsburgh Medical School, and was actively engaged in his profession up until the time of his death.

He was first elected to the State House of Representatives in 1935 and served in the Lower House until 1956 when he was elected State Senator. In keeping with his profession, he specialized in legislation for the protection and betterment of the health of the people of his native State. He was also instrumental in sponsoring and voting for the legislation passed in 1947 by the Legislature which enabled the City of Pittsburgh to embark on the renaissance program that has brought national renown to Pittsburgh for the many improvements that have taken place here. He was also active in the passage of legislation which enabled the Port Authority to consolidate mass transit facilities in Allegheny County.

He was acknowledged as the senior advisor to Allegheny County's Democratic Legislative Delegation; and during his term in the Legislature, was Secretary of the Democratic caucus.

He was a World War veteran, having served in both World Wars I and II, and was discharged from the latter as a Major. He was also a Brigadier-General in the State National Guard.

He was an active member in military, fraternal and civic organizations.

He was an outstanding and conscientious public official and a warm and human friend, always ready and willing to cooperate with his fellow workers and friends.

Therefore, the Mayor and the members of Council of the City of Pittsburgh express their deep sorrow upon his passing; that this resolution be spread upon the record of Council, and that a copy be forwarded to his bereaved family.

Mr. Kamyk moved

The adoption of the resolution.

Which motion prevailed by a rising vote and a moment of silent prayer.

No. 1104.

Whereas, During July and August 1966 the City solicited bids on four issues of bonds totaling \$13,300,000.00, which were to be opened on September 8, 1966; and

Whereas, No legal bid was received at the September 8, 1966, opening of the bids; and

Whereas, The Municipal Borrowing Law of June 25, 1941, P. L. 159, Article II, Section 212, as amended, provides in subsection (k):

"Where general obligation bonds shall be advertised for sale and no legal bid has been received, then it shall be lawful for such municipality to sell the same or any part thereof at private sale for not less than par and accrued interest at any time within six months from the date of sale in accordance with the terms originally advertised and at a rate of interest not exceeding the maximum rate originally advertised";

and

Whereas, A number of proposals for a private sale was received on September 12, 1966; and

Whereas, A proposal for a private sale of the bonds was received from Pittsburgh National Bank and First National City Bank and Associates at an interest rate of 4% per annum, with a premium of \$17,689.00, or a net interest rate of 3.98733% per annum, which Council has determined to be the best offer for a private sale; and

Whereas, City Council believes that in the present state of the bond market, it is in the best interest of the City of Pittsburgh to accept the foregoing offer for a private sale; now, therefore be it

Resolved, That the Mayor and the City Controller are hereby authorized and directed to accept the proposal of Pittsburgh National Bank and First National City Bank and Associates and to proceed with a private sale of the City's bonds in the amount of \$13,300,000.00 National City Bank and Associates at an

to Pittsburgh National Bank and First interest rate of 4% per annum, with a premium of \$17,689.00.

Which was read.

Mr. Baskin moved

The adoption of the resolution.

Mr. Baskin said:

Mr. President:

I ask for final action on this Resolution. As you know, bids were received on competitive bidding and, under the law, it is permitted to negotiate for it. I think it is also common knowledge that the best bond interest obtained by cities throughout the Country in past months is $4\frac{1}{2}$ per cent, or sometimes higher. We were able to obtain a bid

here of 3.98733 per cent which was the best bond interest available for some time now and, in view of the fact we will need this bond money to continue our program of improvements to the City, I ask for adoption of the Resolution.

And the question recurring on the adoption of the resolution, the motion prevailed.

Mr. Counahan moved

That Mr. Kamyk be excused for absence from this Council meeting.

Which motion prevailed.

And upon motion of Mr. Counahan,

Council adjourned.

out on the Pacific Coast, and from quite a few of the residents of not only the City of Pittsburgh but also Allegheny County. I don't know of anything that happened in Council for a long time which received so much publicity. The only thing I remember, that received publicity like this, was when I pulled down those calendars in No. One Police Station that were unfit to be in any building, let alone in a public building.

I have also received a letter from Michael A. Musmanno, Justice of the Supreme Court of Pennsylvania, regarding the Nativity Scene, to which I replied. Therefore, I would request that Justice Musmanno's letter and my reply be inserted in the minutes of this meeting.

Mr. Kamyk moved

That the request of the President of Council be complied with.

Which motion prevailed.

And the communications are as follows:

SUPREME COURT OF PENNSYLVANIA
Justice Michael A. Musmanno
811 City-County Building
Pittsburgh 19, Pennsylvania

September 30, 1966

Hon. Patrick T. Fagan
President of the Council
of the City of Pittsburgh
City-County Building
Pittsburgh, Pennsylvania

My Dear Mr. President:

The American Civil Liberties Union has addressed a communication to the Council of the City of Pittsburgh objecting to an appropriation of funds by the City Council for the display of the Holy Nativity Scene in a Christmas tableaux in Mellon Square at Christmas time. This objection lacks merit from every point of view.

To begin with, Christmas day is a national and state holiday, declared by law (United States Code Annotated, Title 5, Sec. 86; Purdon's Pennsylvania Statutes Annotated, Vol. 44, Sec. 11).

The Nativity Scene is the very essence of Christianity. On December 25th.

Jesus Christ was born. That is the very event being celebrated and commemorated on Christmas Day. To exclude from any manifestation of reverence the very object which is the subject of the reverence is about as illogical and absurd a proposition as can be imagined. It would be like prohibiting the exhibition of the Declaration of Independence on the Fourth of July. To prohibit the showing of the symbol of the National and State holiday on the day of its very celebration goes beyond the bounds of common sense.

In the second place, Jesus Christ is a historical figure of universal magnitude. To us who embrace the Christian faith, He is divine, but everyone acknowledges that, regardless of religion or creed, the lowly Nazarene was a vast moral force which vitally influenced the tide of world events. So much so is this true that our very calendar, which records every moment of our life, is based on the person of Jesus Christ. Even in a pagan period of history, the tremendous force of the personality of the Carpenter from Nazareth was such that governments, historians and global chroniclers decided to divide the eternal stream of time into two parts, that which flowed prior to the birth of Christ and the period which followed after His birth.

For the Civil Liberties Union now to assert that the government of the City of Pittsburgh may not do homage to the Man of Sorrows Whose figure rears to the sky in dividing the oceans of time as the mountain ranges divide terrain and distances is opposed to every principle of reason, logic and historicity.

If the City Council of Pittsburgh may not do homage to Jesus Christ, whose birthday our national legislators and state legislators have recognized through official statutes of law, then Council could be prohibited from expending money for the exhibition of a portrait or statute of George Washington on February 22nd and Abraham Lincoln on February 12th. This, of course, would be arrant nonsense.

It would be a sad thing for Pittsburgh if the City Council would retreat in the face of this attack on what is fundamentally legal, sound, moral and proper in every sense.

The attitude of the American Civil

Liberties in its opposition to the display of the Holy Nativity Scene at Christmas time in a city park is in keeping with the attitude which is aiming at driving religion out of the hearts of American people. This, in spite of the fact that every coin with which we purchase food to sustain life bears the motto "In God we trust"; this, in spite of the fact that every office-holder must take an oath to God to faithfully discharge the duties of his office; this, in spite of the fact that every session of Court opens with a prayer to God; this, in spite of the fact that every witness who testifies in court vows to tell the truth, for which he will answer before God on Judgment Day.

I respectfully submit that the objection of the American Civil Liberties Union to the display of the Holy Nativity Scene in Mellon Square at Christmas time should be rejected by City Council. To yield to the demands of the American Civil Liberties Union would be to give impetus to the dark movement on foot to overthrow those symbols of virtue, humility, goodness and morality, which are the very foundation of the Mansion of American Democracy.

Respectfully,

MICHAEL A. MUSMANNO

October 4, 1966.

Justice Michael A. Musmanno,
811 City-County Building,
Pittsburgh, Pa. 15219

Dear Judge:

This is to acknowledge receipt of your delightful letter of September 30th in

reference to the Holy Nativity Scene being part of the Christmas Display at Mellon Square Park at Christmas Time.

I appreciate beyond words the beautiful sentiments expressed therein, Judge, and I know that they come from the heart concerning the display of the Nativity or the Holy Family in public or in private during the Yuletide Season.

The American Civil Liberties Union as far as I am concerned do not understand what civil liberties are. Next to religion liberty is a great God-given right because when God gave us life He gave us liberty with it, and if we lose that liberty it is our own fault because we haven't got the moral and physical courage to battle for it. The Civil Liberties Union and Dr. Blanchard talk about Separation of Church and State; and as far as I am concerned there is no such thing as Separation of Church and State. The First Amendment to the Constitution of the United States reads: "The Congress shall make no law respecting the establishment of religion, or prohibit the free exercise thereof," which proves beyond a cavil of doubt that this matter of Church and State is purely a misnomer.

Thanks again, Judge, for your moral and judicial support to have the Nativity Scene in Mellon Square Park.

With best wishes and kindest personal regards. I am,

Sincerely yours,

PATRICK T. FAGAN

And on motion of Mr. Counahan,

Council adjourned.

For many years, Mr. Hunt was one of the great corporate leaders of this nation as well as a dedicated leader of the Pittsburgh community.

During his span of corporate leadership, The Aluminum Company of America became one of the nation's largest corporations with its headquarters based in Pittsburgh. He and Mrs. Hunt left their mark on the community through their considerable benefactions, including the Hunt Library at Carnegie Institute of Technology.

MOTIONS AND RESOLUTIONS

Prior to the opening of the meeting, the Chair appointed a committee of three, consisting of Messrs. Baskin, Flaherty and Kuhn, to prepare a suitable resolution on the death of David L. Lawrence.

The committee presented the following resolution:

No. 1406. The Mayor and the members of Council of the City of Pittsburgh join the thousands of friends and associates in mourning the death of David L. Lawrence on Monday, November 21, 1966, at the age of 77.

Mr. Lawrence was born and reared in that section of the City of Pittsburgh, known as The Point. His earthly story ends where it began, at The Point of his beloved native City of Pittsburgh.

At an early age he was employed in the office of Attorney William J. Brennan, who was then the Chairman of the Democratic Party in Allegheny County. Under the tutelage of Mr. Brennan, Mr. Lawrence learned the rudiments of Politics.

From that day on he took an active part in politics, and was still going strong 61 years later when he had a heart attack at the wind-up rally of his party's state campaign on November 4 at Syria Mosque.

The years in between were filled with his accomplishments in business, politics and government. His first elective office was as Mayor of Pittsburgh in 1946. He was re-elected in 1949, 1953 and 1957, and was elected Governor of Pennsylvania in 1958.

At the time of his death, Mr. Lawrence was Chairman of the President's Committee on Equal Opportunity in Housing.

Mr. Lawrence, as Chairman of the Urban Redevelopment Authority, was a dominant figure in the Renaissance of Pittsburgh. Because of his achievements in smoke and flood control and urban renewal, his establishment of a system of municipal parking garages, and his ability to maintain civic-labor-industry cooperation, he was selected as one of the nine best mayors in the Nation and was awarded the Distinguished Service Award of the United States Conference of Mayors—which organization he served as President for two terms.

He was an able and dedicated public servant. He was a force for good, and a man of high purpose and courage.

To relieve the plight of the destitute and those in dire circumstances, he advocated and fought for the enactment of such social legislation as public assistance, unemployment compensation, social security and mother's assistance.

He was a charitable man and during his lifetime provided food and coal to the needy.

He also advocated reform in the election laws of Pennsylvania by eliminating the tax qualification and substituted permanent registration.

At the time of the organization of the United Fund in 1956 he took an active part and during its first years was Chairman of the Government Division which included the City, the County, the State and the Federal Employees. He learned that serving the needs of others was the most richly rewarded career on earth.

The people of Pittsburgh benefited by his consuming interest in politics and government and his determination was to use public power to uplift the life of the city, the State and the Nation.

He was a humanitarian, an affectionate husband, a loving father, and a generous friend.

He served in World War I and was discharged as a First Lieutenant. He was a member of various charitable and veterans' organizations.

He leaves behind him a great record, one for his many followers to carry on the work he started. Present day Pittsburgh stands as his Monument.

Therefore, the Mayor and the members of City Council express their deepest sympathy and condolences to the family of David L. Lawrence in their hour of bereavement.

Pittsburgh, Pa.,

Thursday, December 1, 1966.

And the hour of 2:00 o'clock, P.M., having arrived and the time of the recess having expired, Council reconvened and there were present:

Mr. Baskin, Mr. Counahan, Mr. Flaherty, Mr. Jordon, Mr. Kamyk, Mr. Kuhn, Mr. Leslie, Mr. Fagan (Pres't).

Absent: Mrs. D'Ascenzo.

Mr. Fagan:

Council has reconvened this Legislative Session to hear the message from His Honor, Mayor Joseph M. Barr. This is the seventh time that His Honor has

appeared before the Pittsburgh City Council and the citizens of the City of Pittsburgh, to present his budget. The Mayor, as a Senator of the Commonwealth of Pennsylvania, has handled a lot of budgets, prior to coming to the City of Pittsburgh as our Mayor. In discussing this matter with the Mayor and Members of City Council, and the heads of all the Departments of our great City—Department of Public Safety, Department of Public Works, Department of Lands and Buildings, and all of the other important departments—the Mayor said that one day, he would love to come before City Council with a budget that would make the citizens of the City of Pittsburgh happy and, at the same time, make the employees of the City of Pittsburgh satisfied with the kind of budget he was going to present. In making a budget, whether it is for the City or county or state or Nation, or your own budget, it is always a difficult problem, but the Mayor, along with Council and the heads of all the departments have given of their time, effort, energy, and intellect, in trying to work out a budget we can live with, and with which we can carry on in the same manner we did during the years when the late and lamented Governor Lawrence, of happy memory, presented budgets to you.

Now, our Mayor, who probably was better acquainted with the late Governor Lawrence in the City of Pittsburgh and who has gotten a lot of advice from him on municipal affairs, on how to run this great government—my Mayor and your Mayor—comes to you this afternoon with a world of experience, both in State government and municipal government and in the affairs of our great City. I am happy to present to you our dynamic Mayor, the Honorable Joseph M. Barr.

Honorable Joseph M. Barr:

Mr. President, Members of City Council and Fellow-Pittsburghers:

As we proceed with the business of municipal government this afternoon, our hearts are heavy with the tragic loss this community has suffered.

But as you know, David L. Lawrence detested maudlin display. He would be

the first to urge us to go on with business as usual.

I am going to take just a few moments to read the letter that was sent to Mrs. Lawrence a few days ago by President Lyndon B. Johnson.

In just a few paragraphs, I believe, the President captures the essence and measure of the man we now mourn.

"My heart was heavy today with thoughts of your husband and how much we all shall miss him.

"Only the circumstances of my own recuperation prevented me from joining you and your family in tribute to a good friend and a great American.

"His greatness can be measured in the magnitude of his accomplishments as mayor, governor and advisor to presidents. It can be weighed in the strength he brought for over half a century to the Democratic Party and cause. It can be judged in the size of the good that he has left behind for so many millions of our people to enjoy.

"But for all of that, I believe history will find the real measure of David Lawrence in the greatness of his principles and the nobility of his purpose.

"His faith was in the people. He fought for them all his life. He gave his life to enriching the character and opportunities of American life. The craft of politics and art of leadership have been forever brightened by the quality of his dedication and the scale of his success.

"The Governor is not gone, because his works will grow and endure. I hope you find some comfort in that.

"You have my own and my family's deepest sympathy. We will keep you, your daughters and Jerry in our prayers as we will always keep the memory of your husband in our hearts."

* * *

In respect to David L. Lawrence, a great mayor, governor, public official, and above all, politician, I would ask that everyone please rise for a moment of silent prayer.

I have the honor to submit to you the General fund budget for operation of Pittsburgh's municipal government during the 1967 calendar year. This budget consists of estimated revenues to be received as well as the expenditures required to support all phases of the City operation, other than the Water Department.

The year 1966 has been virtually a carbon copy of 1965. Economic and construction activity has been high while unemployment in the Pittsburgh labor market area dropped below three per cent (3%) for the entire year. However, despite the bright economic and employment picture, we find ourselves locked into the same economic paradox we faced 12 months ago.

From a revenue standpoint, 1966 will be even better than 1965. Collections by the end of December are expected to be \$60,644,000, nearly \$1,600,000 above the original calculation. The only "hole" which appeared in the revenue fabric is the personal property levy which, apparently reflecting the over-all decline in the stock market, will be nearly \$200,000 below the estimate.

In addition, by carefully culling all wage, equipment and supplies accounts and by cancelling unexpended carryover funds, it appears that actual expenditures this year will be \$2,210,191 less than our final adjusted appropriation. These cancellations, added to the surplus revenues, provide a net cash balance applicable to the 1967 budget of \$3,810,191.

We will have a substantial surplus as a result of our 1966 operation, but this is offset somewhat by a decline in anticipated revenues. Basic General Fund revenues for 1967, as compiled by the City Treasurer, will be nearly \$500,000 less than money actually received this year. As I pointed out to Council last year, several municipal property sales amounting to more than \$400,000, and a \$350,000 payment by the Parking Authority, will not recur next year; there will be a further drop of more than \$400,000 in personal property revenues based on the reduced valuation received from the County Board of Property Assessments, Appeals and Reviews.

The City Treasurer foresees total funds

next year from all existing sources of \$60,186,655, which combined with the anticipated surplus, will give us General Fund resources amounting to \$63,996,846 for 1967.

* * *

To move to the spending side of the ledger, expenditure requests excluding the Water Department which is dealt with in a separate budget, amount to \$64,245,608, some \$1,108,431 more than the appropriation made in 1966 for similar purposes. Of this increase, the bulk is allotted to non-departmental items, many of them mandatory, including the following:

1. Police and fireman upgrading—to provide increment payments to first, second and third-year members of the uniformed bureaus, as traditionally granted in the past, will require \$121,723.

2. Social Security—the City will have to contribute \$60,725 more in 1967 when the employer's contribution rises from 4.2 per cent to 4.4 per cent.

3. Group life insurance—next year's appropriation will be \$180,000, some \$30,000 higher than the 1966 allocation. During the first 16 months of this plan, a total of \$330,000 has been paid to beneficiaries of municipal employees in 93 claims.

4. Biggest single non-departmental increase will be for debt service which amounts to \$8,221,036, approximately \$640,500 above the 1966 figure. Pittsburgh borrowed \$13.3 million this year to finance its long-term physical improvements. As Council knows, principal and interest charges could have been far higher except that Pittsburgh received one of the lowest interest rates of any city in the United States in the midst of the tight money market.

Debt service is the one item in the annual operating budget which reflects municipal spending for new streets, recreation areas, water system rehabilitation and other essential long-lasting improvements to make the City a more pleasant and more attractive place in which to live.

Despite the greatly enlarged rate of spending for these new facilities which support the whole community, the City is allocating only about 11 cents of each tax dollar for debt service. Few other cities can equal this accomplishment. As late as 1940, Pittsburgh was spending 25 cents of every tax dollar for borrowing obligations.

5. We are designating \$300,000 for real estate refunds next year with no way of knowing at this time what the final needs will be. Unless recent local Court decisions that drastically cut Pittsburgh assessments are overturned by the appellate court, we face the loss of hundreds of thousands of dollars in rebates and reduced real estate returns. It appears that City revenues will suffer because of the alleged absence of uniform County-wide assessment policies.

Council will note that \$200,000 has been added to the Public Works automotive account which is used to purchase equipment for all City departments. This represents a conscious effort to meet the needs for expanded and improved services in departments like Public Works, Public Safety and Parks and Recreation with more mechanization instead of more manpower.

For example, we have added 21 new patrol cars to the police fleet this year with good results so far in more intensive patrolling of neighborhoods and an encouraging drop in crime rate.

In Public Works, additional engineering and supervisory personnel are provided for; other increases in the basic budget over 1966 reflect the increased costs of things which the City must buy, plus increased services in such specialized areas as traffic control and park maintenance.

City Council will be particularly receptive, I would hope, to the new positions provided in the Bureau of Building Inspection to expand our City-wide code enforcement effort. In line with suggestions advanced at recent public hearings conducted by Council, three new code specialist positions have been added to the Bureau of Building Inspection. This will enable us to carry on a City-wide housing inspection program and to train and develop three teams of code enforce-

ment specialists who will work with the County Health Department in intensive neighborhood code enforcement activity.

I am also recommending a new position of Chief Magistrate in order to centralize the administration of the existing police magistrate courts and to make possible the establishment of a separate Housing Court. We will introduce legislation in the next session of the General Assembly to make it possible to create a central Housing Court to deal with all housing violations in Pittsburgh.

Although Federal funds for the City's Neighborhood Youth Corp have been reduced somewhat, I am proposing the same level of City spending for this youth work training activity, \$130,000, in order to continue the neighborhood lot improvement program which has proven so popular.

The 1967 approved departmental requests, along with the non-departmental costs I have mentioned, would mean total General Fund Expenditures of \$64,245,608.

This brings us to the matter of municipal wages. Even though it is evident that municipal salaries are not on a par with those paid in private industries or even in other large cities, I normally would not be recommending any wage change in light of the adjustment granted last year.

But by any standard, 1966 has not been a normal year. The cost of living has risen sharply across the nation—and the heavy hand of inflation digs just as deeply into the pocket of the municipal wage earner as it does everyone else.

We know that, based on various national consumer indices, the cost of living during the past 12 months has jumped between three and one-half per cent to four per cent.

We know that Social Security costs for all employees next year will increase by two-tenths of one per cent.

We know that the cost of local hospital insurance will go up by a substantial amount yet to be determined by the State Insurance Commissioner.

We cannot, in fairness, ignore the plight of the City employee whose annual

income already lags behind his counterpart in the community. In order to enable the municipal worker at least to keep pace with the cost of living increases that have occurred this year, I am proposing the following wage adjustment.

For all City employees earning \$10,000 or less, an across the board increase of five per cent.

For all employees earning more than \$10,000, a flat increase of \$500.

This cost-of-living proposal adds \$2.1 million to next year's budget. When combined with the expenditures already noted, the City's total obligations will be \$66,345,608—or approximately \$2,348,762 more than revenues available.

We are severely restricted in the means by which to close this gap. As Council knows, we have reached the legal limit set by the General Assembly on such levies as the earned income tax, deed transfer, retail mercantile, occupation privilege and other measures previously authorized by State Act 481 of 1947. The same limitations were reenacted in the new Local Tax Enabling Law, Act 511, adopted in 1965. The only major resources available to us are the real estate levy and water rates.

Therefore, with considerable reluctance, I am constrained to propose an increase in the property tax of three mills on land and one and one-half mills on building valuations. This will produce an estimated \$2,400,000 and place the budget in balance.

This marks the second time in my seven years as Mayor that I have been required to request an adjustment in the real estate charge.

As Council knows, the graded tax system, which taxes land values at double the rate of building values, is mandated by the Legislature for Pittsburgh and Scranton.

As a rule of thumb, one mill under Pittsburgh's graded system (that is, one mill on land and one-half mill on buildings) is equivalent to two-thirds of one mill under the flat millage system in effect in other municipalities.

Thus, the recommended increase of three mills on land and one and one-half mills on buildings is slightly less than two mills under the flat rate plan.

To translate this into more meaningful terms, the proposed hike will add \$12 to the annual real estate billing of the average Pittsburgh home owner (property assessed at \$7,000).

This, then, is the City's budget picture for 1967:

1966 Cash Surplus ----- \$ 3,810,191

1967 Revenues ----- \$62,586,655
(Including proposed real estate change)

TOTAL FUNDS AVAILABLE--\$66,396,846

1967 Departmental
Expenditures ----- \$66,345,608
(Including wage adjustment)

NET Surplus ----- \$ 51,238

Water services next year will require \$7,337,413. The final 1967 appropriation, including the Water Department, therefore, will be \$73,683,021, an increase of \$3,034,774 above the 1966 figure.

* * *

Before reflecting further on the state of municipal finances—and the dilemma facing virtually every American city—I should acknowledge that frequent requests have been made to the Mayor's Office and to City Council by local theater owners for elimination or reduction of the 10 per cent admission tax which is paid by the movie-goer. This item produced approximately \$425,000 in 1965.

If this year, our only choices were ones of abundance and we had only to decide which charges to reduce, I would be pleased to give highest priority to this appeal. But in good conscience, I cannot recommend to Council the elimination or reduction of any measure benefitting one segment of the community at a time when we must increase the burden of every home-owner in the City.

This budget, of course, is subject to careful review by City Council. We have strived to eliminate unessentials in all City departments. If there are reductions which are proper, but which we have

somehow missed, I know this Council will be well advised to take the proper action.

If changes are to be made, I would request that the Department Heads be consulted, for many worthwhile departmental recommendations had to be turned down to bring this budget into its present precarious balance.

Any substantial additions, of course, will require provision of new revenues to pay for them.

* * *

One thing is clear. We are no closer than we were 12 months ago to solving the paradox of municipal want in the midst of a national economy of plenty.

Even with the upward adjustments proposed here, the problems of Pittsburgh's municipal finances will hardly be solved.

As I emphasized last year, despite the high level of economic advance nationwide, it becomes increasingly difficult for Pittsburgh—and most American cities—to meet their financial obligations, to provide the unceasing demands for improved and expanded services, and to provide a decent level of remuneration for its employees within the existing municipal fiscal framework.

I wish I could stand before you today as a municipal Solomon—with a precise and painless solution to the plight of American urban areas.

But I don't know the answer—nor would it seem does anyone else.

It is clear that the resources required to solve the problems of slum and blight, ignorance and poverty, crime and delinquency cannot come from cities alone.

We have not met with sufficient success in exploring the means by which to ease the financial burden of the central city.

There must be a more equitable reassignment of public functions, particularly those regional in nature, but now financed solely or disproportionately by Pittsburgh taxpayers. I must ruefully

concede we have had scant success in persuading the present County Commissioners of the basic justice of this position.

We must continue to search out every possible economy within municipal government. We must be constantly on guard against the tendency of government to become slack, to accept the time honored method just because that is the way things have always been done.

We must continue to search for progressive revenue measures if there are any still untapped.

We should have greater freedom in use of tax resources already available to us. I am sure that the people of Pittsburgh expect the Mayor and Councilmen they elect to make the tax decisions affecting them and not the members of the General Assembly in Harrisburg.

I shall propose to the Legislature next year that all ceilings on City taxes be lifted so that the Mayor and Council can exercise maximum discretion in making budget decisions affecting the interests of the people they represent. Here is another instance when greater home rule is essential to orderly business of municipal government.

We must look to the State government to assume a greater role in helping urban communities with their operating expenses, particularly in the field of public safety and traffic control. Pittsburgh spends hundreds of thousands of dollars each year for police services and direction of traffic that originates beyond the City boundaries.

As I also stressed last year, we must bring to bear our national resources in greater intensity than anything yet mentioned, and at the same time develop the local capacity and talent to use these funds effectively and wisely.

Here, I submit, Pittsburgh has done well.

We have moved to use every possible resource, local, State and Federal to build a more attractive city and to help the less fortunate citizens of our community.

6 alone, through planning and initiative, we succeeded in securing in \$18 million in Federal funds to meet our own efforts. This in Federal assistance for every facet of our endeavor from urban beautification, from expansion to the war on poverty, to manpower training opportunities to the Neighborhood Youth

ained nearly \$1,350,000 in State funds to expand our parks and open space through Project 70.

ed be said at all, let me hasten to say that Pittsburgh is not involved in a blind pursuit of Federal handouts; simply recognize that the slums, the idleness of able-bodied men deprived of work, the over-crowding of our schools, indeed a whole host of City problems, are national problems which should get first call upon national resources.

re, as Council well knows, those things that we are still not doing

no difficulty in readily agreeing to this criticism. Yet I must point out to our critics, to City Council and to the people of Pittsburgh—that we have not yet established some order in our efforts to help our fellow citizens in the months ahead, those efforts to make our measure become self-de-

re determined the City's efforts to use funds to meet demands for services, the more likely we are to attract more affluent citizens to our suburbs.

y, the greater the tax load places on business within its area, the less our opportunity to attract commerce and industry our citizens requires.

I believe that we are now providing every service which might be to the benefit of Pittsburgh citizens, but we must continue to have a rigid test upon each request for our public services. Where that test should be the savings to the city by performing our

services more economically or by the elimination of some service which has a lesser usefulness.

* * *

We are at the point it seems to me, when the City's financial structure, its relationship with its neighbors, its obligations, its necessities and its long-range fiscal planning must be considered as a whole, and must from time to time, be reviewed in its entirety.

The city plays a critical role in American life. The success of Pittsburgh—and every other American city—in providing a physical and social framework through which millions of Americans are prepared to participate fully in the nation's life is a vital national concern,

I am convinced the prime responsibility for greater financial assistance rests with the Federal government, which primarily has resources equal to the task.

I am equally convinced, however, that the major responsibility for leadership necessary to make fullest and wisest use of those resources rests with the local community.

As a body, City Council has never failed to take the forthright and courageous actions required when Pittsburgh's welfare has been at stake.

Working together, as we have, I am sure that the problems of this budget will be mastered. The work we do together will continue to be devoted to one great cause—to make Pittsburgh one of the finest communities in the nation in which to live.

Mr. Baskin moved

A suspension of the rule so as to allow the second and third readings and final action on the bills.

Mr. Fagan:

The Chair has a couple questions and probably some remarks, on Bill No. 1430, File No. 726, and Bill No. 1431, File No. 727. I would like to know how the contract price on Phipps Conservatory jumped from \$160,000 to \$183,000?

Mrs. D'Ascenzo:

Mr. President, it was given out for bids and the bids came in away over the estimate. The architect was asked to come back and redesign the building and bring it in line with the estimate. Even with the redesign, the cost was above the estimate provided. It is considered, now, with the new appropriation, we will get bids and go ahead and build the building.

Mr. Fagan:

Is he a landscape architect?

Mrs. D. Ascenzo:

He is a design architect; he designed the building.

Mr. Fagan:

It was nine per cent on the first fee; now, he reduces it to 8.99. One mill he reduces it. The architects' fee is usually six per cent and not more than eight.

Mrs. D'Ascenzo:

It is on the amount of the contract and they have a strong union.

Mr. Fagan:

The average architects' fee, whether it is a church or public building or school,

is six per cent. Here's an architect who gets nine per cent and comes back, when we increase it by \$23,000, and he is going to give us a mill on each dollar he gets.

Mrs. D'Ascenzo.

That is not considered an exorbitant contract so the amount of fee is predicated on the amount of the contract. Perhaps for a million dollar contract, you may be able to get a better price.

Mr. Fagan:

Supposing you are building a home for \$10 thousand, or \$12 thousand or \$18 thousand. That wouldn't send the rates up.

Mrs. D'Ascenzo:

You probably wouldn't hire an architect; you would design it yourself.

Mr. Fagan:

I'm voting against this so you will know my position.

Mrs. D'Ascenzo moved

That Bills No. 1430, 1431 and 1432 be recommitted to Committee on Finance.

Which motion prevailed.

Mr. Flaherty presented

Mr. Baskin moved

A suspension of the rule so as to allow the second and third readings and final action on the bills.

Which motion prevailed.

And the bills were read a second time.

Mr. Fagan:

I might say, for the information of Council, you know I voted in the Negative at the Committee meeting and I'm going to do the same, today, for certain reasons. For a long time, in Schenley Park, the golf club and individuals playing golf there, were asking that toilet facilities be put in in order to take care of them. Of course, the park is used year round and Phipps Conservatory is used about three months out of the twelve. It is closed whenever there are no flowers there.

Mrs. D'Ascenzo:

Perhaps the three months out of the year is when they have the flower shows, but it is open the year round.

Mr. Fagan:

How many people visit it?

Mrs. D'Ascenzo:

We could get those statistics for you, but we have many school children going through there all year round.

Mr. Fagan:

The point I want to make, these golf clubs and individuals, especially from the 15th Ward, have, for the last ten years, been asking me to see if toilet facilities couldn't be put in Schenley Park for people who play golf. In Frick Park, the Gaelic Athletic Club which brings teams in from Cleveland, Detroit, Buffalo, Rochester, New York—they have been asking for quarters where they would be able to have a dressing room

and be able to take a shower when the game is over. They have been ignored completely. Yet, this other place, all they have to do is ask. In the first estimate we got \$160,000. Now, it is \$183,000. The architect was going to get \$14,450 and now he is going to get \$16,500.

Mrs. D'Ascenzo:

But the use of the Phipps Conservatory, the times when it is mostly used and when it attracts the most visitors, are during the flower shows. However, it is open all the rest of the year. Many groups go there from all over Western Pennsylvania, from the whole Tri-state area. In fact, they come from Ohio and West Virginia. They are brought by the busloads; they are brought by their teachers.

Now, as to priority, where the need has been the most, this has been discussed for about five years. As to the golf club, it is true that these needs are recognized and there are plans that a new building be built there for the golfers. At the time the Gaelic Society asked for washing facilities, it was suggested some arrangements could be made so that they could stop at some other City facility for the necessary accommodations and then go on to Frick Park. That, too, is something that can be discussed again. As to the use of Phipps Conservatory, I would say it is probably one of the best known conservatories in the United States and our flower shows receive favorable attention from the members in the horticultural field. The building of this building is necessary to this extent; that Mr. Curto's offices, right now, are right in the hallway. His secretary has to sit in just a little booth, to one side of the hallway, where people are coming in and out all the time. Accommodations for the restrooms are not very good because it is an old building.

Mr. Kuhn:

Mr. President, may I ask whether you recall voting against the ordinance to which these ordinances are amendments—these ordinances relating to the new facilities at Schenley Park? The original ordinances were adopted in 1964 and 1965 and I don't recall whether you voted for or against them at that time.

Mr. Fagan:

I voted for them. We were told it was to be \$160,000, and nothing of offices for Mr. Curto or anybody else. Mr. Curto is closed in; he doesn't sit out in the open. The girl who sells postcards—she sits out there—but Mr. Curto's office has a closed door and everything. You have to have a permit to get into it.

Mr. Kuhn,

If you were to persuade me to vote against these ordinances, I wonder what would happen to the obligations of the City under the contracts entered into pursuant to those ordinances?

Mr. Fagan:

I'm not trying to persuade you to vote for them or against them. I'm merely telling you, they told us this could be done for \$160,000.

Mr. Kuhn:

We were also told about the Stadium.

Mr. Fagan:

God save the stadium. After what the Steelers did yesterday, we ought to enlarge the Stadium.

Mr. Leslie:

I was always taught that silence is a virtue by my mother but it isn't easy to be so in this case. In the future, through no provocation, if the Stadium project is to be discussed, I must look into everything I can to be used in rebuttal for this program. I don't think it's a joke; I think it is very serious, as far as the City is concerned. We are all involved; the City administration, the Mayor has endorsed this program. I feel if there is any criticism in the future, we are going to have to do something about it.

Mr. Fagan:

I don't care. In my lifetime, I have had a lot of bricks and rocks and different things like that thrown at me. Sometimes I was able to duck and some-

times I wasn't. In answer to Mr. Kuhn, I might say, I have a right to change my mind like you or anybody else. When this matter was before Council, I expressed my opinion and my convictions and my vote. What has passed before is water over the dam. As my father used to say, "the mill will never run again with water that has passed."

And the bills as read a second time were agreed to.

And the bills were read a third time and agreed to.

And the titles of the bills were read and agreed to.

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Mr. Baskin	Mr. Jordon
Mr. Counahan	Mr. Kamyk
Mrs. D'Ascenzo	Mr. Kuhn
Mr. Flaherty	Mr. Leslie

Noes: Mr. Fagan (Pres't).

(Mr. Flaherty not voting.)

Ayes 8. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Mr. Jordon presented

No. 1498. Report of the Committee on Planning and Redevelopment for December 13, 1966, transmitting an ordinance to Council.

Which was read, received and filed.

No. 1503.

December 20, 1966.

From: Stadium Sub-Committee
To: City Council
Subject: Northside Stadium

We are pleased to report that the Stadium Authority has informed the Sub-Committee that it has reconciled its design differences with the Pittsburgh Baseball Club. As a result of this agreement, the Authority, with the blessings of Mayor and City Council, will instruct its architects-engineers to modify its revised design drawings to incorporate the agreed-upon changes as quickly as possible. The Authority reports that it will take approximately two to three months to complete a new

set of detailed preliminary drawings. Following completion and approval of these drawings by all concerned, the Authority will then instruct its architects-engineers to prepare a new set of working drawings so that the stadium project can be re-bid at the earliest possible time in 1967.

Your Committee feels, after many discussions with the Stadium Authority, that the stadium program is again moving forward with all principal parties in agreement. The Authority has been assured that its design changes will not substantially affect the stadium's projected construction cost of approximately \$28 million. Also, both your Sub-Committee and the Authority have agreed that it is most important that the stadium be as architecturally significant and attractive as funds will allow, due to the important location that the stadium will occupy once it is completed.

We will continue to work closely with the Authority and will, from time to time, bring you further reports on the progress of the stadium program.

Respectfully submitted,

MAYOR'S OFFICE

December 22, 1966.

President and Members
City Council
City of Pittsburgh

Gentlemen:

In accordance with Article XIV, Section 12 of the City Charter Act of 1901, as amended, 53 P. S. 22322, it is hereby requested that the attached ordinance providing for the transfer of funds within the Neighborhood Youth Corps accounts be introduced at your Friday, December 23 session and passed finally on the same date. It is essential that these transfers in code accounts be authorized at this councilmanic session in order to make it possible to pay NYC personnel before the end of 1966.

It should be pointed out that no increase in appropriations is involved in this ordinance. The NYC funds in these accounts consist of federal grants and the only purpose of the ordinance is to transfer the funds within the proper accounts for the purpose of paying wages and salaries.

Very truly yours,

MAYOR JOSEPH M. BARR

Mrs. D'Ascenzo presented

No. 1510. An Ordinance transferring the sum of \$2,814 from Code Account 1812 to Code Account 1813, Department of Parks and Recreation.

Which was read and referred to the Committee on Finance.

Mr. Jordon presented

No. 1511. An Ordinance amending the Zoning Ordinance, No. 192, approved May 10, 1958, as amended, Zoning District Map Sheet Z-0-0 by changing from "R4-H" Multiple-Family Residence District to "R5" Multiple-Family Residence District all that certain prop-

erty bounded by Grandview Avenue, Ulysses Street, the "R2" Two-Family Residence District south of Grandview Avenue, Block 1N, Lots Numbered 268 and 279 in the Allegheny County Block and Lot System, 19th Ward.

Which was read and referred to the Committee on Planning and Redevelopment, and hearing scheduled for Monday, January 30, 1967, at 2:30 o'clock, P.M. in the Council Chamber.

Mr. Fagan:

Before I extend my greetings and salutations, I would like to say to the members of Council, if there has been anything I have said or done during the year 1966, I now apologize. I would like to say that I am sorry if I offended anybody in any branch of City Government and especially the members of Council. Of course, I would like to close this meeting on a very happy note but the day has been tinged with sadness due to the death of Blair F. Gunther, County Commissioner. It was a sudden death, but the rest of us have to live, and I want to say to the Mayor and the Members of Council, to the Staff and to all of the City employees and the citizens of our great City, I wish them all a very Merry Christmas, a very Happy, Healthy, Prosperous and Holy New Year. I hope the slogan in 1967 will be Peace—domestic Peace, military Peace, and international Peace. That is my wish to all of you and I ask God to bless everyone of you during the year 1967 and in the years to come.

Mr. Kamyk:

Mr. President, as you said, Allegheny County Minority Commissioner, Blair F. Gunther, passed away early this morning and, out of respect to him, I move that when Council adjourns today, it adjourns to meet on Tuesday, January 3, 1967, at 2 o'clock p.m. and the Standing Committees of Council, commencing with the Committee on Finance, meet on Wednesday, January 4, at 2 o'clock p.m. I ask that this motion be taken by a rising vote and a moment of silent prayer.

Which motion prevailed.

Mr. Fagan:

This session of Council now adjourns out of respect to the memory of Blair F. Gunther who was minority Commissioner in Allegheny County and, of course, we have had a lot of arguments with Blair but you never could fight too long with him. No matter how much you argued or fought, he left you with a smile and the next time he would see you, it was as though nothing ever happened. At one time, Gunther was a Democrat. That is probably the reason. He was Assistant Attorney General in Western Pennsylvania. I hope his soul is resting in peace. All those in favor of the Motion rise to their feet and offer a silent prayer and ask God to have mercy on him.

And thereupon, Council adjourned.
